

Six Korean Craft Artists Present ENOUGH at 3 Days of Design 2026

— Official program of 3 Days of Design 2026

— Korean craft reinterpreted as contemporary everyday objects

ENOUGH, a Korean craft exhibition curated by Studio KKANN (founded by Heeyoung Jung), opens in Copenhagen from Wednesday, June 10 to Friday, June 12, 2026. The exhibition is part of the official program of 3 Days of Design 2026, Northern Europe's leading design festival, with Studio KKANN participating as an official Exhibitor.

ENOUGH focuses on the value of making, emphasizing process and attitude over the final outcome. Rooted in traditional Korean craftsmanship, it reinterprets heritage materials and techniques into contemporary everyday objects, expanding craft from something to be appreciated into something to be used. Positioned between Seoul's restrained aesthetics and Copenhagen's minimalism, the exhibition proposes a contemporary intersection where craft and design, making and living converge. The exhibition is structured around three axes: Materiality, Gesture, and Form.

The six participating artists are Seo Jihye, WKND Lab, Yun Yeodong, Jeong Hyejin (Five Comma), Choi Younghwan (Morphfiction), and Ha Soomin (Grove). Their work has been recognized through major international awards and collections, including a Red Dot Design Award (Yun Yeodong) and acquisition into the Victoria and Albert Museum (V&A) collection (Jeong Hyejin), among others — advancing the contemporary voice of Korean craft on the global stage.

The exhibition takes place at the newly opening Denps Copenhagen Flagship Store (Store Kongensgade 48, 1264 København K, Denmark). To mark the occasion, a limited-edition collection — 'Denps Original Goods,' co-created with the six participating artists — will be unveiled on site. Detailed work captions and the full goods lineup will be released in a separate communication.

■ Exhibition Details

Title	ENOUGH
Dates	June 10 (Wed.) – 12 (Fri.), 2026
Venue	Store Kongensgade 48, 1264 København K, Denmark
