PP Møbler exhibition at 3daysofdesign:

A vision made possible

For 3daysofdesign 2026, PP Møbler presents an exhibition in the Flagship Store in Carlsberg Byen centred on two significant anniversaries in the work of Hans J. Wegner. The Circle Chair marks 40 years, while the Papa Bear Chair reaches its 75-year milestone. The exhibition focuses on how these designs are made, understood and continuously developed in the workshop.

Across the three days, the Circle Chair forms the core of the programme. Visitors are invited to follow the chair through different stages of its making, from the shaping of the wood to the final detailing of the chair. A cabinetmaker and a weaver will be working in the space, offering a direct insight into the level of precision required to realise the design. The woven seat is demonstrated live, highlighting the techniques that contribute to the chair's distinctive construction and transparent expression.

The anniversary of the Circle Chair is further marked by a presentation by Master of Craftsmen Kasper Holst Pedersen, who will speak about the development of the chair and the close collaboration between PP Møbler and Hans J. Wegner that made its production possible.

Alongside this, the Papa Bear Chair is presented as part of its 75-year anniversary, with a focus on variations within the design and recent additions to the collection, particularly within the textile range, where a new collaboration introduces an expanded selection of upholstery options. The exhibition offers an opportunity to experience the chair from different perspectives and gain a deeper understanding of its construction and character.

Throughout the exhibition, the Flagship Store serves as an open workshop and meeting point, where visitors can engage with both the objects and the people behind them. The programme moves between quiet moments, live demonstrations and presentations, creating a setting that reflects the working process of PP Møbler.

Coffee, tea and refreshments will be served daily.

PP Møbler Flagship Store

Bryggernes Plads 11
1799 Copenhagen V

Open daily from 10 am to 6 pm.

About PP Møbler

PP Møbler is a family-owned furniture workshop with a strong tradition for advanced craftsmanship made to the highest possible quality standards. All production is based in Denmark north of Copenhagen, and the collection as well as the history of the company is closely connected to the legacy of renowned Danish designer Hans J. Wegner.
