Karakter x Cassina

A Scandinavian apartment for 3daysofdesign

Frederiksgade 1, 10th - 12th of June 2026

“Make This Moment Matter” is this year’s theme of 3daysofdesign, the annual festival that takes place in Copenhagen to celebrate great design. This topic is particularly relevant to Cassina, constantly committed to **safeguarding its legacy** by reviving designs from its archive or updating models from its collection to meet today’s needs, while also **looking towards the future, investing in innovation, research and development**, with a particular focus on **durability and circularity**.

Karakter x Cassina is now part of **Cassina’s atmospheres** with an extensive selection of products that come together in a curated combination of **design heritage** and **contemporary expression**, contributing to further enhance the presentation of the brand’s unique vision, “**The Cassina Perspective**”.

As part of the 3daysofdesign installation, **an apartment has been furnished in the historic Frederiksgade 1 design house collaborative** located in the city centre, showcasing soft tones and harmonious combinations in respect of this stunning Scandinavian setting.

In the six rooms of the apartment an **eclectic design narrative** unfolds, combining **iconic classics** from the Cassina Collection, such as the *Soriana* model by Afra & Tobia Scarpa, the *Utrecht XL* armchair by Gerrit T. Rietveld and the *4 Chaise longue à réglage continu, durable* by Le Corbusier, Pierre Jeanneret and Charlotte Perriand, together with the **Karakter x Cassina Castore** round table by Angelo Mangiarotti, the renowned *Office Desk* by Bodil Kjaer, the *Scarpa 121* chairs and *Scarpa 925* lounge chairs by Afra & Tobia Scarpa.

These are mixed with **new designs from the 2026 Cassina Collection**, including the enveloping forms of the *Ardys* sofa system by Patricia Urquiola, the *Plana* low table by Charlotte Perriand and the *Met* sofa by Piero Lissoni with its revised design, as well as recent launches such as the tactile *Treflo* table by Ronan Bouroullec and the *FF.Spine* bookshelf by Formafantasma.

Particular attention has been paid to the **new Karakter x Cassina pieces**: the *AB Dining* table by Aldo Bakker is paired with the reissue of the *CH66* chair by Nicos Zographos, while the scenographic *Peacock Chair* by Verner Panton, presented on the centenary of his birth, particularly stands out for its playful aspect. Also in celebration of the centenary of their author, the *780/783* low tables by Gianfranco Frattini are on show in the new finishes proposed this year.

The apartment is completed with an **ample range of lighting** by designers of the calibre of Charles & Ray Eames, Angelo Mangiarotti, Ico Parisi and Birgitte Due Madsen & Jonas Trampedach.
