

Elmo Leather at 3 Days of Design 2026

2026.05.28

Elmo Leather joins 3 Days of Design for the first time as part of a collaborative exhibition at Johanson Design's showroom on Bredgade 45.

Curated by colourist and designer *Tekla Evelina Severin*, the exhibition explores the relationship between colour, material and form through a carefully composed showroom experience. As part of the installation, a selection of *Johanson Design* furniture is upholstered in leather from Tekla's updated *Elmonordic* palette for *Elmo Leather*.

Visitors can also explore Elmo's material table, featuring a broad range of leather articles and finishes. Designed as a tactile resource for architects, designers and other creatives, it offers a hands-on introduction to the character, texture and colour of leather.

The Elmo team will be present throughout the event for inspiration, conversations and meetings.

Other exhibiting brands include *Decibel*, *Noon*, *Byborre*, *NCS* and *Bolon*.

10–12 June 2026
Bredgade 45, Copenhagen
