FOR IMMEDIATE RELEASE

A—N—D OPENS PERMANENT COPENHAGEN FLAGSHIP

A—N—D

*3*days*of*design

During 3daysofdesign, A-N-D will debut its first European flagship as a natural extension, co-existing in Vancouver and Copenhagen.

Layers unfold through a multi-floor exhibition titled North Quarters, showcasing Canadian design with curated timeless series as well as recent additions.

Upon entry, the main floor consists of a dispersed, gallery-like curation of pieces. A figurative necklace of glass Contour and Pebble pendants is strung the length of a 10-foot dining table designed by fellow exhibitor Christian Woo. Standing light boxes emphasize the brand photography with grandeur. Below, the basement remains in its original materials, now housing floor lamps, wall sconces, and product prototypes for a more hands-on experience for guests. Sitting on the top—the third floor—you will find an idyllic respite point. A symphony of Column floor lamps stand in rows, and a Vale wall cascades light downwards onto La Marzocco's espresso machines, from which visitors are encouraged to order coffee—a nod to last year's Cafe A-N-D Bar exhibition.
