Vaarnii Unveils New and Returning Accessories at 3daysofdesign

Vaarnii is joining forces with Kasthall to present the Vaarnii & Kasthall Café during 3daysofdesign. Enjoy our furniture in use and get a first glimpse of a new accessories collection.

Vaarnii will be presenting new and existing designs in a working café as part of Ark Journal's DESIGN/DIALOGUE exhibition at Den Frie Udstilling in Copenhagen. We are partnering with our friends, Swedish carpet manufacturer Kasthall, to bring a bustling café to life with brutal pine furniture and precision woven textiles. Our concept is simple; visitors will be able to rest a while on our furniture and experience it in use, coffee and cake is an optional extra. We will furnish the Vaarnii & Kasthall Café with seating and tables from our 001 range by **Fredrik Paulsen** and our Hans series of reengineered lighting by **Hans-Agne Jakobsson**.

Small Things Matter

We are excited to announce the reintroduction of a Vaarnii accessories collection. Small things matter and this new series of objects is intended to drive the Vaarnii spirit of brutal design and maximum pineness further into our customers' homes. The accessories collection will consist of everyday objects and tools, and include new typologies alongside some familiar reengineered objects from our inaugural collection. Following its preview at 3daysofdesign, the collection will be available to order from September 2026.

The new **019 Syy Chopping Board** is a brutish addition to any work surface. Double thickness, available in two sizes and constructed from our characteristic end-grain pine, it is designed to service any hardworking kitchen.

The **009 Tray by Livia Lauber** featured in Vaarnii's original collection. Now it is back, reengineered for more efficient production and lighter in weight, but with the same elegant proportions and just as efficient in its multifunctionality.

The **020 Koppa Crate by Philippe Malouin** is constructed from solid pine and is Vaarnii's take on a familiar storage archetype. Modelled specifically to accommodate the dimensions of vinyl LPs but suitable for all manner of storage, the 020 Koppa Crate is the ultimate utilitarian storage solution.

Hans Free

Our Hans family of lighting is welcoming a new member. The 1006 Hans Pendant is our smallest pendant light to date. Although compact in scale, the pendant is full of the same bold character and emits the same unique pine-filtered light as its larger siblings. The 1006 is a reengineered version of an original Hans-Agne Jakobsson 1960s design, from a pioneering collection of pine veneer designs that Vaarnii continues to be proud to reintroduce. The 1006 will be on display at the Vaarnii & Kasthall Café and is intended to be used singularly in small spaces or en masse for maximum pine impact.

Breakfast Chats

Each morning during 3daysofdesign Vaarnii & Kasthall will host a themed conversation between our brands and our extended family of designers and collaborators. Coffee will be served and a Q&A session will follow each talk.

Wednesday June 10, 9:00–9:45 AM

One-thingness

In a multi-disciplinary world specialism is increasingly rare. We explore the benefits of true expertise and single-mindedness with Designers **Jay Osgerby** and **Philippe Malouin**. Chat moderated by Vaarnii's CEO **Antti Hirvonen**, and Kasthall's CEO **Mirkku Kullberg**.

Thursday June 11, 9:00–9:45 AM

Taking the long view

Designing for longevity is a familiar concept, but what does it really mean, and do we ever really achieve it? We discuss lasting design with Designer **Edward Barber** and DWR's Creative Director **Omar Nobil**. Chat moderated by Vaarnii's CEO **Antti Hirvonen** and Kasthall's CEO **Mirkku Kullberg**.

Friday June 12, 9:00–9:45 AM

Perfectly imperfect

Working with natural materials means accepting irregularity and variation. How should we embrace a philosophy of imperfection when it comes to our homes and how we live?

Vaarnii's CEO **Antti Hirvonen** will be asking Designer **Fredrik Paulsen** and design agency Fyra's Co-founder **Niina Sihto** for their thoughts.

Please RSVP to the Breakfast Chats at: <https://luma.com/vaarnii>
