

PRESSEMEDDELELSE | JUNE 2026

LIGHT-POINT at 3daysofdesign

Join us ... and live in the moment!

During 3 Days of Design 2026, we invite you to step inside and experience our universe of light.

Explore new arrivals – our two new collections launching in September – alongside our exclusive, timeless designs and more than 30 years of design history, while enjoying freshly brewed barista coffee, gourmet finger food for lunch, exquisite signature cocktails, and atmospheric music from DJ Lee Van.

LIGHT-POINT designs experiences – not just lamps. And we would love to show you. That is why we invite you into our large showroom and store in the heart of Copenhagen, located at the corner of Gothersgade and Borgergade.

LIGHT-POINT is a Danish design company with an international collection—sleek, distinctive lamps with a clear signature. For us, light helps transform spaces and bring them to life, both in private homes and in collective, public environments – including hotels, restaurants, and offices.

There is calmness and precision in our lamps: geometric shapes, exclusive materials, and intelligent technology. For us, it is always about balance – sharp, clean lines and precision on one side, poetry and sensuality on the other. Each lamp is therefore a meeting between technology and aesthetics, between function, form, and feeling.

This is united and reflected in our extensive, award-winning collection – our large family of lamps. Different in temperament and expression, yet sharing the same DNA. The minimalist design is timeless and therefore visually and aesthetically sustainable, while the lamps also have edge and character, functioning as design statements both indoors and outdoors.

Our lamps are ideal for creating unique lighting landscapes and scenography. They shape light and are conceived as sculptural objects that highlight the space and surrounding architecture, while also standing strong on their own.

Our brand motto, CREATING LIGHT, is not a cliché but a manifesto. Our approach to design has always been playful, boundary-pushing, and uncompromising. We like to challenge norms and traditions – which is why our design language is architectural and artistic.

For us, light is not just something we switch on and off. It's something we feel – and something we share. So drop by, join the conversation, and experience how light, atmosphere, and people come together. Enjoy the moment. Enjoy the light.

We look forward to welcoming you on June 10–12. We are open daily from 10 a.m. to 6 p.m.
