

RUE VERTE – 3DAYSOFDESIGN 2026

RUE VERTE at 3daysofdesign

Since 1994, RUE VERTE has brought together contemporary design, vintage pieces, art and collected objects to create interiors that feel personal, enduring and uniquely their own.

Part gallery, part concept store and interior design studio, RUE VERTE has developed a distinct approach to creating interiors where different periods, disciplines and expressions coexist naturally.

For this year's 3daysofdesign, RUE VERTE presents a newly transformed interior that reflects an approach developed over more than three decades. Rather than separating art, design, vintage and contemporary works into categories, the exhibition explores the dialogue that emerges when they are brought together within a carefully composed interior.

Throughout RUE VERTE, contemporary pieces are presented alongside vintage finds, rare books, artworks and architectural elements, creating spaces that feel collected over time rather than assembled around a particular trend or moment.

Within the gallery, four dedicated presentations highlight the work of Shuhei Fukuda, Jojo Corvãia, Karen Verlinden and Studio Henry Wilson. Each artist and designer has been given an individual setting, allowing their work to be experienced within its own atmosphere while remaining part of the larger exhibition.

A salon-style installation forms another focal point of the presentation, bringing together contemporary art, vintage lighting, rare books and original architectural elements by Jean Prouvé. Spanning different periods, disciplines and expressions, the installation reflects RUE VERTE's belief that meaningful interiors are created through thoughtful combinations rather than strict categories.

The exhibition also includes selected works and collections from Bieke Casteleyn, Boldizar Senteski, Ceccotti Collezioni, Collection Particulière, CTO Lighting, Delcourt Collection, Entrelacs Creation, Koen Van Guijze, Maja Karen, Meridiani, Morten Angelo, Natural Material Studio, Ochre, Overgaard & Dyrman, Simonsen & Czechura, Toogood and Vogel Studio, among others.

The result is an environment that feels assembled over time rather than created for a particular moment - a reflection of the way RUE VERTE has worked since 1994, bringing together objects, artworks and furniture that continue to resonate long after trends and seasons have passed.
