JOURNEY AT BIOLITE**

# IV INFUSION PROTOCOL AT BIOLITE

## ① CONSULTATION

Each session begins with a personalized consultation and a blood test to assess your health, goals, and medical history. Our medical team then recommends a tailored IV formulation to meet your specific wellness needs.

## ② BEFORE YOUR DRIP

Patients are advised to stay hydrated and eat lightly before treatment. The clinician sanitizes the site and prepares your IV blend, ensuring a safe, comfortable experience.

## ③ IV INFUSION

A sterile cannula is gently inserted into a vein to deliver a custom blend of vitamins, minerals, and antioxidants. The 30–60 minute infusion ensures rapid nutrient absorption, boosting hydration, immunity, and vitality at a cellular level.

## ④ RECOVERY

There's no downtime—most patients resume daily activities immediately. Some feel an instant lift, while others notice gradual improvements in energy, focus, and overall well-being in the days that follow.

IMMUNE BOOST & HYDRATION

GLOWING & RADIANT SKIN

ENERGY BOOST & FITNESS SUPPORT

HAIR LOSS SUPPORT

GUT SUPPORT

IRON BOOST

WELLNESS FOR VIP

ANTI-STRESS & ANTIOXIDANT IV

DIABETIC SUPPORT

CARDIO SUPPORT

MEMORY BOOST

WEIGHT LOSS SUPPORT

## BENEFITS:

### GLOWING SKIN

- IMPROVES SKIN TONE AND RADIANCE
- SUPPORTS LIVER DETOX WITH (GLUTATHIONE)
- DELIVERS KEY NUTRIENTS LIKE VITAMIN C, ZINC, AND B-COMPLEX

### HYDRATED BODY

- REPLENISHES FLUIDS AND ESSENTIAL ELECTROLYTES
- ENHANCES MUSCLE AND NERVE FUNCTION
- PREVENTS DEHYDRATION-RELATED FATIGUE AND WEAKNESS

### IMMUNE DEFENSE

- REPLENISHES FLUIDS AND ESSENTIAL ELECTROLYTES
- ENHANCES MUSCLE AND NERVE FUNCTION
- PREVENTS DEHYDRATION-RELATED FATIGUE AND WEAKNESS

## BENEFITS:

### IMPROVED FOCUS

- ENHANCES MENTAL CLARITY AND CONCENTRATION
- REDUCES STRESS AND ANXIETY
- SUPPORTS MOOD REGULATION THROUGH SEROTONIN AND DOPAMINE

### JET LAG REVIVAL

- REHYDRATES THE BODY AFTER FLIGHTS
- RESTORES ELECTROLYTE BALANCE
- REDUCES FATIGUE AND BRAIN FOG FROM TRAVEL

### DETOXIFICATION

- FLUSHES TOXINS FROM THE LIVER AND KIDNEYS
- IMPROVES METABOLIC FUNCTION
- SUPPORTS CLEARER SKIN AND BETTER ENERGY

IV DRIPS MENU

## WHAT WE OFFER

At Biolite, we take personalization to the next level. Our custom IV infusions are designed to suit your individual health goals, ensuring the perfect blend of vitamins and minerals.

## GLOWING & RADIANT SKIN IV

A beauty-focused drip that brightens skin, fades hyperpigmentation, and supports collagen production for a youthful glow.

### BENEFITS:

- Improves skin tone, brightness, and texture
- Stimulates collagen for firmer skin
- Reduces acne scars, dark spots, and dullness

### KEY INGREDIENTS:

- Vitamin C
- Biotin

## NAD IV (NICOTINAMIDE ADENINE DINUCLEOTIDE)

An infusion-based treatment that delivers the coenzyme NAD+ directly into your bloodstream—ensuring full absorption—to support cellular energy production, regeneration, and cognitive function

### 💧 BENEFITS:

- Enhances cellular energy and cognitive function
- Reduces chronic stress and elevates mood
- Rejuvenates cells & combats aging effects
- Offers complete bioavailability

### 🧪 KEY INGREDIENTS:

- Nicotinamide Adenine Dinucleotide

## LASER IV

An innovative, non-invasive biohacking treatment that combines IV therapy with low-level laser light delivered directly into the bloodstream. It employs specific wavelengths of light to stimulate cellular activity—particularly within mitochondria—enhancing cellular function and overall wellness.

### 💧 BENEFITS:

- Enhanced cellular function
- Stronger immunity
- Chronic pain relief
- Skin rejuvenation & anti-aging
- Rapid recovery & energy boost

## LASER IV WAVELENGTHS

### Infrared (810 nm):

- Deep tissue penetration; activates stem cells and used in photodynamic activation

### Red (635 / 658 nm):

- Stimulates immune function, enhances blood rheology, and provides pain relief via photodynamic therapy with agents like Chlorin E6, 5-ALA, EGCG.

### Yellow (589 nm):

- Boosts detoxification and mood by stimulating serotonin and vitamin D metabolism; used with Hypericin.

### Blue (405 / 447 nm):

- Offers strong antibacterial and anti-inflammatory action, improves microcirculation by releasing nitric oxide (NO), activates telomerase, and works photodynamically with Curcumin and Riboflavin.

## IMMUNE BOOST & HYDRATION IV

A powerful blend of vitamins, minerals, and fluids that strengthens your immune system and keeps you hydrated. Ideal for cold/flu prevention or recovery.

### BENEFITS:

- Enhances immune response and resilience
- Provides deep cellular hydration
- Speeds up recovery from illness or fatigue

### KEY INGREDIENTS:

- Vitamin C
- Zinc
- B-Complex
- Electrolytes
- Vit B-Complex

## ENERGY BOOST & FITNESS SUPPORT IV

This performance-focused drip supports muscle recovery, energy metabolism, and stamina. It's ideal for active individuals and athletes.

### BENEFITS:

- Boosts physical energy and endurance.
- Speeds muscle recovery and reduces soreness.
- Improves mental clarity and focus.

### KEY INGREDIENTS:

- Vit B12,
- Vit B-Complex
- Amino Acids
- Magnesium

## HAIR LOSS SUPPORT IV

Formulated to nourish the scalp and strengthen hair follicles from within. This IV provides vitamins and minerals critical for hair regeneration and reduced thinning.

### BENEFITS:

- Enhances immune response and resilience
- Provides deep cellular hydration
- Speeds up recovery from illness or fatigue

### KEY INGREDIENTS:

- Biotin
- Zinc
- B-Complex
- Amino Acids

## GUT SUPPORT IV

Designed to restore gut lining health and support digestive function. This drip helps reduce inflammation and optimize nutrient absorption for improved gut wellness.

### BENEFITS:

- Repairs gut lining and reduces intestinal inflammation
- Eases bloating and supports healthy digestion
- Enhances absorption of nutrients

### KEY INGREDIENTS:

- L-Glutamine
- B-Complex
- Vitamin C

## IRON BOOST IV

This drip is used to treat iron deficiency anemia by delivering bioavailable iron directly into the bloodstream for rapid absorption.

### BENEFITS:

- Treats fatigue caused by low iron levels
- Enhances oxygen transport and stamina
- Supports red blood cell production

### KEY INGREDIENT:

- Iron Sucrose or Ferric Carboxymaltose

## WELLNESS FOR VIP IV

A comprehensive, high-potency infusion designed for total wellness. It combines antioxidants, vitamins, and minerals for full-body rejuvenation.

### BENEFITS:

- Treats fatigue caused by low iron levels
- Enhances oxygen transport and stamina
- Supports red blood cell production

### KEY INGREDIENTS:

- Vitamin C
- B-Complex
- Magnesium

## ANTI-STRESS & ANTIOXIDANT IV

This drip targets high stress levels and oxidative damage. It delivers essential vitamins and antioxidants directly into your bloodstream to support nervous system function and cellular protection.

### BENEFITS:

- Treats fatigue caused by low iron levels
- Enhances oxygen transport and stamina
- Supports red blood cell production

### KEY INGREDIENTS:

- Vitamin C
- Magnesium
- B-Complex

## DIABETIC SUPPORT IV

Designed to help manage blood sugar, protect nerve function, and reduce oxidative stress in patients with diabetes or insulin resistance.

### BENEFITS:

- Improves insulin sensitivity and blood sugar control
- Reduces nerve pain and neuropathy symptoms
- Supports metabolic function and energy

### KEY INGREDIENTS:

- Chromium
- Alpha Lipoic Acid
- B-Complex

## CARDIO SUPPORT IV

Supports cardiovascular health by improving circulation, energy production, and vascular tone. Ideal for those with poor circulation or heart health concerns.

### BENEFITS:

- Enhances blood flow and arterial health
- Supports heart muscle function
- Reduces cardiovascular inflammation

### KEY INGREDIENTS:

- L-Arginine
- Magnesium
- CoQ10
- B Vitamins

## MEMORY BOOST IV

A brain-boosting drip that enhances focus, cognitive function, and memory. Great for students, professionals, and those with brain fog.

### BENEFITS:

- Enhances blood flow and arterial health
- Supports heart muscle function
- Reduces cardiovascular inflammation

### KEY INGREDIENTS:

- L-Arginine
- Magnesium
- CoQ10
- B Vitamins

## WEIGHT LOSS SUPPORT IV

A targeted infusion designed to accelerate metabolism, improve energy, and support fat-burning processes. Ideal for individuals aiming to enhance weight management alongside a healthy lifestyle.

### BENEFITS:

- Boosts metabolism and fat burning
- Supports energy production and endurance
- Helps reduce cravings and improve body composition

### KEY INGREDIENTS:

- L-Carnitine
- Taurine
- Vitamin B12
- L-Glutamine

The background of the image is a close-up, low-angle shot of water flowing over rocks in a stream. The water is clear and bright, with sunlight filtering through, creating a shimmering effect. The rocks are light-colored and partially submerged. The overall mood is serene and natural.
