A SYMBIOSIS

of the latest aesthetic & longevity therapies

OUR VISION

My vision is to revolutionize healthcare by blending advanced medical science with a truly personalized approach. It's about empowering individuals to attain lasting vitality by addressing the root cause, not just managing symptoms. Through bespoke wellness plans, we are shaping a future where people enjoy longer, healthier, and more enriched lives.

Mona Mirza
CEO

YOUR AESTHETIC JOURNEY STARTS HERE

At Biolite, we believe beauty is more than skin deep — it's an act of self-love. Every treatment, every moment of care, is a step toward becoming the most confident, radiant version of yourself. Whether it's rejuvenating your skin, sculpting your body, or nurturing your wellbeing, our mission is to help you look and feel your best — inside and out.

Because when you invest in yourself, you don't just transform your appearance — you transform your energy, your confidence, your life.

Exfoliation & Dermal Infusion

DIAMOND GLOW FACIAL

A glow-boosting treatment that exfoliates, extracts, and infuses in one seamless session using a precision diamond-tip wand. It leaves skin smooth, hydrated, and visibly radiant—instantly.

Key Modalities:

- Diamond Tip Exfoliation – resurfaces and refines texture
- Vacuum Extraction – clears pores and congestion
- Targeted Serum Infusion – delivers hydration and active ingredients deep into the skin

Ideal for all skin types and concerns, with no downtime.

Pressurized Oxygen Facials

OXYLIGHT FACIAL

A red-carpet essential, The Oscars' Glow Treatment is the ultimate skin-lifting, glow-enhancing ritual. This multi-modality facial fuses cutting-edge technology with holistic calm to transform your complexion—and your state of mind.

Key Modalities:

- Oxygen Infusion
- LED Light Therapy
- Microcurrent Sculpting
- Ultrasound Serum Delivery
- Negative Pressure Therapy
- Lymphatic Drainage
- Biosonic Vibration
- Guided Meditation

Instantly firms, brightens, and rebalances—this is the glow Hollywood swears by.

Pressurized Oxygen Facials

OXYJET LEO FACIAL

A high-tech, non-invasive oxygen facial using pulsed oxygen to infuse serums deep into the skin, boost radiance, and treat fine lines and pigmentation—completely pain-free and with zero downtime.

OXYGEN BRIGHTENING FACIAL

Focuses on injecting oxygen and brightening agents to revive dull skin, lighten pigmentation, and promote a luminous, dewy glow.

CACAO OXY FACIAL

A more botanical / “soft peel” style treatment combining cacao-based enzymes with mild oxygenation or infusion to gently brighten and calm skin.

Instant Glow Facials

RED CARPET FACIAL

A luxe pre-event ritual combining enzyme exfoliation, radiofrequency tightening, caviar + hyaluronic masks, and stem-cell serum infusion via chilled oxygen to sculpt and glow instantly.

24K GOLD FACIAL

A gold-infused facial using the antioxidant and anti-inflammatory properties of 24K gold to promote luminosity, firmness, and rich nourishment for radiant, red-carpet skin.

KOREAN GLASS SKIN FACIAL

A multi-step facial deeply hydrates, smooths, and tightens the skin to achieve a “glass skin” effect—clear, poreless, and dewy. Great for those seeking a flawless, youthful finish with long-lasting radiance and balanced skin tone.

Advanced Skin Renewal

SALT FACIAL

Uses salt exfoliation, ultrasound penetration, and multi-wavelength LED therapy to treat acne, pigmentation, fine lines, and stimulate collagen while deeply hydrating.

DERMAPLANING

A gentle manual blade technique that removes vellus (peach fuzz) and dead skin, leaving the skin ultra-smooth, primed for better absorption of products.

A D V A N C E D
L A S E R S

Advanced Lasers

ADVALIGHT

A dual-wavelength laser that treats acne, redness, and melasma while enhancing collagen production. The result is smoother, calmer, and more balanced skin with a refined, glass-like glow.

FOTONA 5D

An advanced evolution of Fotona 4D, enhanced with an additional handpiece for deeper lifting and collagen activation. It firms, tightens, and revitalizes the skin from every layer, offering an all-in-one non-surgical facelift experience.

Advanced Lasers

PICO

A next-generation laser that targets pigmentation, melasma, and uneven tone with ultra-short pulses of light. It safely rejuvenates the skin, minimizes pores, smooths texture, and restores clarity for a luminous, even complexion. Also effective for intimate brightening and overall pigment correction.

FRAXPRO

A fractional resurfacing laser treatment that smooths texture, reduces scars and stretch marks, and promotes collagen regeneration for firmer, clearer, more radiant skin.

Advanced Lasers

IPL PHOTOFACIAL

Harnessing the power of intense pulsed light, this treatment diminishes redness, acne, sun damage, and pigmentation. It revitalizes dull skin, leaving a clearer, more radiant, and youthful-looking complexion.

EMERALD

A non-invasive fat-reduction laser that targets stubborn fat cells with gentle, low-level light energy. It helps contour the body, improve metabolism, and support healthy lymphatic drainage for a slimmer, more refined silhouette.

FACE
CONTOURING

SOFWAVE

The red carpet's latest secret. This next-gen ultrasound treatment lifts brows, defines jawlines, and rejuvenates the neck—while building collagen from within for lasting results.

ULTHERAPY

The gold standard in non-surgical skin tightening. Harnessing focused ultrasound, Ultherapy reaches deep into the foundational layers for an elegant, lifted effect—without downtime.

THERMAGE

Loved by celebrities for its one-and-done tightening power. Thermage uses precision radiofrequency to smooth, firm, and contour the skin—perfect before high-profile events.

QUANTUM MOLECULAR RESONANCE

Europe's most exclusive rejuvenation therapy, now trending globally. QMR boosts skin vitality at the cellular level—enhancing firmness, tone, and collagen renewal with bio-energy precision.

M I C R O N E E D L I N G A N D
R A D I O F R E Q U E N C Y

MORPHEUS 8

A cutting-edge microneedling RF treatment that remodels collagen, tightens skin, and improves texture across various areas with minimal downtime.

INMODE FORMA

A radiofrequency treatment that improves skin elasticity and firmness by stimulating collagen, resulting in a smoother, lifted appearance.

SKINPEN MESOTHERAPY

A rejuvenating fusion of microneedling and mesotherapy infusions that deliver potent nutrients deep into the skin. This treatment enhances elasticity, hydration, and tone, reviving tired and lackluster skin.

ENDYMED INTENSIF

An advanced microneedling radiofrequency treatment that rejuvenates skin from within by stimulating deep collagen renewal. It smooths fine lines, refines pores, and enhances firmness, restoring a radiant, youthful complexion with minimal downtime.

B O D Y T R E A T M E N T S

Radiofrequency

EMSCULPT NEO

A rejuvenating fusion of microneedling and mesotherapy infusions that deliver potent nutrients deep into the skin. This treatment enhances elasticity, hydration, and tone, reviving tired and lackluster skin.

EVOLVE

A cutting-edge, non-invasive platform offering body contouring, skin tightening, and muscle toning through radiofrequency and electrical muscle stimulation. This hands-free treatment adapts to your body's unique needs, redefining your silhouette with elegance and ease.

Radiofrequency

THERMAGE

It offers non-surgical skin tightening using radiofrequency to stimulate collagen and improve skin texture and tone. With just one session, it smooths, contours, and rejuvenates areas like the abdomen, arms, and thighs—delivering a visibly firmer appearance that lasts.

ENDYMED

Endymed's 3DEEP radiofrequency technology penetrates deeply into the skin to lift, firm, and contour areas such as the abdomen, arms, and thighs. With consistent collagen stimulation and no discomfort, it offers visibly tighter, more youthful skin after a course of treatments.

Advanced Lasers

FRAXPRO

A fractional non-ablative laser that rejuvenates and resurfaces the skin to treat stretch marks, scars, and skin laxity. It's perfect for those seeking smoother, firmer skin on the body with minimal downtime and dramatic results over time.

EMERALD

The FDA-cleared Emerald Laser is a cold laser technology that painlessly emulsifies fat in stubborn areas. It's perfect for patients seeking non-invasive inch loss, improved body composition, and a healthier metabolic profile—with zero discomfort or recovery time.

Fat Freezing

ORCHESTRA

A body sculpting treatment that synergizes multiple technologies in a customized sequence for unparalleled contouring, toning, and skin tightening. It targets stubborn fat, lax skin, and poor circulation—all in one harmonized session tailored to your body's rhythm.

Ultrasonic

VIP HI-LINE

An exclusive Biolite signature treatment, VIP Hi-Line targets the waistline and love handles with precision sculpting technologies and bespoke protocols. It refines contours, enhances definition, and creates a luxe silhouette worthy of the spotlight.

Microneedling and RF

MORPHEUS 8 3D

A rejuvenating fusion of microneedling and mesotherapy infusions that deliver potent nutrients deep into the skin. This treatment enhances elasticity, hydration, and tone, reviving tired and lackluster skin.

ENDYMED INTENSIF

An advanced microneedling radiofrequency treatment that rejuvenates skin from within by stimulating deep collagen renewal. It smooths fine lines, refines pores, and enhances firmness, restoring a radiant, youthful complexion with minimal downtime.

Lymphatic Treatments

PRESSOTHERAPY

This advanced compression therapy enhances lymphatic drainage, reduces cellulite, and improves circulation. Often used post-body contouring, it's a relaxing way to detoxify, reduce bloating, and reveal a more refined figure while reclining in absolute comfort.

MANUAL LYMPHATIC DRAINAGE

A gentle, rhythmic massage that promotes the natural drainage of the lymph, MLD reduces swelling, enhances detoxification, and boosts immune function. Ideal post-surgery or after aesthetic treatments, it leaves the body feeling lighter, sculpted, and deeply relaxed.

C L I N I C A L

Botox

This is one of the most trusted injectable treatments for wrinkle relaxation. By temporarily relaxing targeted facial muscles, Botox softens expression lines and prevents new ones from forming — all while preserving your natural look and movement.

Benefits:

Reduces fine lines and wrinkles such as frown lines, forehead creases, and crow's feet. Helps refine facial balance and create a refreshed, well-rested appearance.

Areas:

Forehead, between the brows (glabellar lines), around the eyes, jawline (for contouring), neck, and even underarms for excessive sweating.

Brands:

Allergan, Dysport, Xeomin

Dermal Fillers

Rediscover youthful volume and definition with dermal fillers designed to lift, contour, and hydrate the skin. Using advanced hyaluronic acid formulas, fillers restore structure lost over time and enhance facial harmony with subtle, natural-looking results.

Benefits:

Restores volume to hollow areas, smooths deep wrinkles, plumps lips, and sculpts the cheeks and jawline. Provides instant rejuvenation with minimal downtime.

Areas:

Cheeks, lips, nasolabial folds, marionette lines, chin, temples, jawline, and under-eye hollows.

Brands:

Juvederm, Restylane, Belotero

Skin Boosters

Give your skin a radiant, hydrated glow from within. Skin boosters are micro-injections of hyaluronic acid and nourishing ingredients that deeply hydrate, improve elasticity, and refine texture. Perfect for those experiencing dullness or early signs of aging, these treatments enhance skin health and luminosity over time.

Benefits:

Intense hydration, smoother texture, and a dewy, youthful glow. Ideal for improving fine lines and overall skin quality.

Areas:

Face, neck, décolletage, and hands — anywhere the skin needs hydration and radiance.

Types:

Profilo, Salmon DNA / Polynucleotides, Restylane Vitale, Volite Juvederm, Belotero Revive, Sunekos, Xelarederm, NCTF

Biostimulators

Biostimulator injections work beneath the surface to gradually rebuild your skin's collagen and elastin network — restoring firmness, structure, and youthful contours from within. Unlike traditional fillers that simply add volume, biostimulators stimulate your body's own regenerative process for results that evolve beautifully over time.

Benefits:

Restores volume, firms the skin, and enhances natural contours for long-lasting rejuvenation.

Areas:

Cheeks, temples, jawline, neck, and areas showing signs of volume loss or laxity.

Types:

Sculptra, Radiesse

Sculptra

A collagen-stimulating injectable that works gradually to restore facial structure and firmness. Unlike traditional fillers, it rebuilds the skin's inner foundation by stimulating your body's own collagen production, leading to long-lasting, natural rejuvenation.

Benefits:

Gradual and natural volume restoration, firmer and tighter skin, improved facial contours, and reduction of fine lines.

Areas:

Cheeks, temples, jawline, nasolabial folds, and other areas showing volume loss or sagging.

Exosomes

Exosome therapy represents the latest innovation in regenerative aesthetics. Derived from stem cells, exosomes deliver powerful growth factors and signaling molecules that repair, rejuvenate, and revitalize the skin at a cellular level.

Benefits:

Enhances skin regeneration, reduces inflammation, improves texture and tone, and accelerates recovery after aesthetic treatments. Also supports hair restoration by stimulating follicle activity.

Areas:

Face, neck, décolletage, scalp (for hair growth), and hands.

Types:

Metacell, ASCE

Platelet Rich Plasma – PRP

Rejuvenate your skin naturally with PRP therapy, often known as the “vampire facial.” This treatment uses your body’s own platelets and growth factors to stimulate collagen, repair tissue, and improve overall skin vitality. It’s a powerful, natural option for patients seeking subtle, organic rejuvenation.

Benefits:

Improves skin tone and texture, reduces fine lines and under-eye hollows, promotes healing, and stimulates hair growth when used on the scalp.

Areas:

Face, under-eye area, neck, décolletage, scalp, and hands.

OUR APPROACH

At Biolite, aesthetics is more than a treatment — it's an art form shaped by precision, innovation, and individuality. Our philosophy is built on one guiding principle: every client is unique, and every experience should be exceptional.

We believe true beauty begins with personalization. From the first consultation to your post-treatment care, every step of your Biolite journey is thoughtfully curated to your needs, goals, and lifestyle. Our expert practitioners take the time to understand your aesthetic vision, designing tailored solutions that enhance your natural features — never mask them.

Our team of medical professionals operates with clinical integrity, using globally approved products and protocols that meet the most stringent safety standards. Every treatment is performed in a controlled, world-class environment — because confidence begins with trust.

THE BIOLITE EXPERIENCE

Stepping into Biolite is more than visiting a clinic — it's entering a sanctuary of transformation. From our serene environment to our attentive care, every detail is designed to elevate your experience. We don't just deliver results; we craft moments of confidence, renewal, and self-assurance that last far beyond your visit.

The Biolite experience extends beyond your appointment. We take pride in providing continuous care, guiding you through every stage of your aesthetic journey. From personalized aftercare to ongoing skin health programs, we ensure your results not only meet but exceed your expectations — with a glow that reflects lasting vitality and inner confidence.

More than a clinic, Biolite is a destination — where science meets soul, and where every client leaves feeling renewed, empowered, and exquisitely themselves.
