t42 IoT Tracking Solutions plc

("t42" or the "Company")

Contguard Convertible Loan Extension and Significant Order

t42 IoT Tracking Solutions plc (AIM: TRAC), a global provider of real-time tracking, analysis, monitoring and security solutions for the container and freight market, announces that it has entered into an agreement ("Agreement") with Contguard Ltd. ("ContGuard") to extend the existing \$1.3m secured convertible loan and for a schedule of purchase orders:

1. **Extension of Convertible Loan** – the maturity date of the Company's \$1.3m secured convertible loan ("CLN") from Ewave Mobile Ltd. has been extended to 10 December 2027. All other terms of the CLN, announced on 26 July 2023, remain unchanged.
2. **Significant Order** – Contguard has undertaken to place purchase orders for t42 tracking product units, worth in excess of \$2.5m million, with payments in advance of deliveries. The orders are scheduled for 2025 and 2026. An initial purchase order has been received, with some units delivered in recent days and the remainder to be delivered by the end of September.

The Board views this Agreement as a strong endorsement of the Company's technology and market positioning. The order reflects only part of the growth in demand expected from Contguard, whose operational performance has led to a marked increase in order volumes. Furthermore, once deployed and operational, the units are expected to generate additional significant SaaS revenues to the Company.

The Company further confirms that it expects to complete and publish its half-year report for the six months ended 30 June 2025 by the end of August 2025.
