

GENEVA

DeCon/XL – Power and Presence, Refined

DeCon/XL sets a new benchmark in Geneva's portfolio for the balance between size and power. Rooted in the design DNA of the DeCon family, it combines bold geometric lines, anodized aluminum, and fine wood finishes into a statement piece available exclusively as a floor-standing system.

At its core lies the new Geneva audio platform, featuring both analog and digital inputs — including HDMI (ARC) — in a compact architecture with a full-height aluminum heat sink, where the Geneva logo is precision-milled into solid metal.

The acoustic architecture is built on six independent channels and a custom driver set:

- **1" tweeter** with 20W RMS (30W peak) power handling, delivering detailed high frequencies up to 20 kHz.
- **5.25" woofer** with 80W RMS (120W peak), engineered for warm and articulate midrange.
- **8" subwoofer** with 140W RMS (210W peak), reaching as low as 43 Hz with authority and depth.

Together, they reproduce the full spectrum from **43 Hz to 20 kHz**, combining clarity and power for a true high-fidelity experience.

Connectivity is straightforward: Bluetooth comes standard, while the rear slot accommodates the **Geneva Wireless Adapter** for AirPlay 2, Google Cast, and Spotify Connect. This modular approach ensures seamless upgrades over time without replacing the entire system.

The Bluetooth BLE remote, crafted from anodized aluminum and genuine leather, controls the system up to 30 meters away, while the only visual interface is a discreet multicolor LED hidden beneath the front aluminum grill — a minimalist touch of understated elegance.

DeCon/XL is offered in two refined finishes:

- Anodized brass aluminum with black wood.
- Anodized champagne aluminum with natural oak.

Each comes with a perfectly matched floor stand, emphasizing its presence as both an audio system and a design object.

DeCon/XL – Technical Specifications

Dimensions & Design

- Size: **50 x 78 x 38 cm** (W x H x D)
- Structure: Full-height anodized aluminum heat sink with milled Geneva logo
- Finishes:
 - Black wood + anodized brass with black stand
 - Oak wood + anodized champagne with champagne stand

DeCon/XL/XXL/XXXL – Technical Specifications

Acoustic Architecture

6-channel active loudspeaker system – **total power 640 W**

- **2 x Tweeters (1")**
 - Power: 20 W RMS (30 W peak each)
 - Impedance: 3.8 Ω
 - Sensitivity: 85.5 dB (1m/2V)
 - Frequency response: 720 Hz – 20 kHz
- **2 x Woofers (5.25")**
 - Power: 80 W RMS (120 W peak each)

- Impedance: 4 Ω
- Sensitivity: 84 dB (1m/1W)
- Resonance: 62 Hz
- Frequency response: 62 Hz – 8 kHz
 - **2 x Subwoofers (8")**
- Power: 140 W RMS (210 W peak each)
- Impedance: 4 Ω
- Sensitivity: 87 dB (1m/1W)
- Resonance: 43 Hz
- Frequency response: 43 Hz – 500 Hz

System frequency response: 43 Hz – 20 kHz (-10 dB)

Connectivity & Features

- **Inputs/Outputs**
 - HDMI (ARC)
 - Optical (Toslink)
 - Line-In (AUX)
 - USB Charging port
 - Active Sub Out
 - Service port
- **Wireless**
 - Bluetooth 5.2 standard
 - Geneva Wireless Adapter (when bundled): **AirPlay 2, Google Cast, Spotify Connect**

Controls

- Remote: Bluetooth BLE, crafted in aluminum + genuine leather, range up to 30 m
- EQ adjustment: ± 6 dB bass & treble, 32-step volume control
- LED interface: single multicolor LED hidden beneath front aluminum grill, LEDs on remote buttons

Power

- Total amplifier output: **640 W** (6 independent channels)
