

Guidance for mentors on progress check scores

To ensure your learner is ready to proceed to the next section after completing a progress check, and so that they can be assigned the corresponding progress level, you should ensure that their score is at least 75% of the maximum possible score before moving on:

Manual	Progress check / section	Count Me In		Turning Pages	
		Maximum possible score	Minimum score required	Maximum possible score	Minimum score required
1	1 (mini manual)	20	15	83	63
1	2	22	17	77	58
1	3	44	33	104	78
2	1	27	21	48	36
2	2	20	15	51	39
2	3	23	18	53	40
3	1	27	21	32	24
3	2	16	12	57	43
3	3	31	24	65	49
4	1	17	13	44	33
4	2	18	14	57	43
4	3	22	17	68	51
5	1	13	10	69	52
5	2	26	20	78	59
5	3	12	9	14	11

If your learner scores below the minimum indicated above, go through anything they're not confident with and then try the progress check again before moving on (make sure it is then the second score that's recorded on the Learner Log Sheet).

Please note that all Count Me In and Turning Pages manuals will be updated in 2025 to include this information.
