## Certificate III in Individual Support (Ageing, Disability)

Interactive Online Delivery

### Is this course for you?

This course is the 'right-one' for you if you are:

- Looking for an enriching and person-centred career, in the Aged Care and/or Disability sector
- Working as an Aged Care or Disability Support Worker role, but don't have a qualification
- Working in the Aged Care and/or Disability sector in another area and would like to be able to provide more support to the clients you interact with everyday
- Have previously worked in the Aged Care and/or Disability and want to gain the skills and knowledge you need, to confidently re-commence your career providing quality support to clients who are ageing or living with disabilities.

You'll develop the skills and knowledge you need to be able to truly connect with your clients, providing them with high quality support as they live their daily lives.

## Our Reason For Being is:

*To empower people to enjoy going to work and perform better; to develop and support them to succeed.*

## This is what our students think:

*"This journey has been transformative, shaping my understanding of empathy, resilience, and the importance of providing quality care."*

*Graduate, CIII Individual Support*

*"It was very good training and I got help through the course helping me at work, I would like to give big thanks to Warner Institute, teacher Karen Cook"*

*Graduate, CIII Individual Support*

*"I am proud and honoured that I finished my course at the Warner Institute. The staff and the teachers are doing a magnificent and fantastic approach for us students. Highly recommended."*

*Graduate, CIII Individual Support*

*"It was because of my teacher that I stayed in the course and enjoyed it, even when it was hard."*

*Graduate, CIII in Individual Support*

## What will you take away from this course?

The Certificate III in Individual Support will give you the core skills and knowledge you need, to start your career across most areas of the care & support sector.

We have specifically chosen a mix of units that give you specialisations in both Ageing and Disability, this will maximise your ability to gain meaningful employment, as well making sure that when you're ready to keep learning, you'll meet the entry requirements for future courses.

You'll be able to work in personal care and support roles in:

- Disability support
- Residential care (ageing or disability)
- Home & Community Care (ageing or disability)
- Planned activity groups

Your Course Consultant can help to connect you to a local employer when you start out, so that you can apply your new skills and knowledge in the workplace.

# What You Will Need

## Inherent course requirements

### Supervised Practical Placement

This course has a mandatory requirement for students to complete 120 hours of work in a relevant role - this includes both an aged care, and disability workplace.

If you are already working, we'll help you to understand how many hours can be undertaken in your normal role, and how many will need to be done on unpaid placement, if any.

This will vary depending on the types of work you are able to be exposed to in your normal workplace.

We'll organise your supervised work placement if you need it - Your roster for unpaid placement will be negotiated with your approved host placement provider(s) ; generally, this will be full days, five days per week..

### Screening Checks and Immunisation Requirements

Aged Care and Disability employers will require you to have clear and current screening checks in place, prior to hosting you on placement, or employing you.

You will be required to provide evidence of your vaccination history for your Host Practical Placement Provider, and for potential employers.

Screening checks and immunisation requirements are determined by public health directives and/or host organisation policy. More detail is available in the Student Handbook.

If you are working you may already have these.

### IT & Internet

You will require a computer or laptop and a reliable internet connection to facilitate your enrolment.

This includes accessing:

- the student portal,
- electronic learning and assessment tools, and
- live online classroom.

iPads and tablets are not sufficient tools to complete this course.

You will require both a camera and microphone to participate in online sessions.

You'll also need access to Microsoft Word to complete your written assessments.

If you require any technical coaching or support, don't panic!

We have a range of supports, including our help desk, built into our normal delivery to ensure students are comfortable.

## Practical Sessions

Your Course delivery includes 2 Face-to-Face practical sessions, that are designed so that you can practice your new skills and knowledge in a simulated environment prior to commencing any supervised work placement.

The sessions enable you to:

- familiarise yourself with the types of manual handling equipment that you may come across when working in a residential facility, day centre or a client's home
- practice safely and carefully assisting clients to transfer from one place to another - for example out of bed, into a chair, into a car
- practice supporting people with grooming so that they feel themselves, and are ready for their day
- familiarise yourself with dose administration aids so that you can safely support your clients with dose administration medications
- complete workplace documentation such as incident reports, case notes, medication charts, personal observations

These sessions are compulsory for all students, even if you're already working. The practice and simulations you undertake form part of your assessment for some unit content. They also provide you with the latest best practice skills; so even if you've done other training you'll still need to attend.

# Whole Person Learning Model

Our point of difference is that we are as committed to you, as you are to your clients.

We incorporate your learning style(s) across our sessions. Our Whole Person Learning Model enables you to explore your emotional intelligence; enhances resilience, whilst you apply your learning to maximise outcomes.

Throughout your course, you'll get to know yourself, so you'll better understand, communicate and connect with your clients and others.

## Nurturing and support

Our students have a dedicated Course Manager supporting, coaching and mentoring them throughout their course. They are available between sessions for students, should they require extra support.

*It's learning underpinned by a safety-net of non-judgemental support and mentoring provided by the Course Manager & our Lead Education Experience & Wellbeing Team.*

## Emotional intelligence

Our students gain a greater sense of self awareness, enabling them to be more insightful as they interact with others.

*This enhances workplace communications and interaction; it supports client connection.*

## Multi-learning methodology

Our workshop style sessions incorporate a range of activities relevant to student learning styles as determined early in the course. We include activities to improve learning capability and maintain interaction throughout each session. We ensure that it's fun.

*It's learning through engagement.*

## Consultative delivery

Each session relates content back to specific issues that workers deal with every day. Conversations during classes help students identify how they can apply the content back in their workplace, and they are encouraged to do so.

*It's learning that makes a difference to how the student does their work and what they change in their service delivery.*

## Contextualised material

Content is condensed into blocks of like subject matter and contextualised to the workplace. Take-Away activities reinforce your learning in the workplace immediately, so clients experience the change as the students modify the way they deliver their services.

*It's meaningful learning with workplace relevance and application so students can recall what they have learned at the right time.*

“Our Whole Person Learning Model will build you up to feel more confident about yourself. This makes it simpler for you to learn, and then after, relate it back to your workplace in a way that's useful to you.”

## Build adaptability

Our students build their creative talents to stimulate innovation, encourage problem solving relevant to the situation, and anticipate & plan for change.

*Students are more able to think outside the norm to manage and plan for workplace change, effectively connecting with stakeholders.*

## Applied learning

Our Whole Person Learning Model enables students to grow their capacity for retention, adoption and implementation of their new best practice skills & knowledge.

*Student learning is recalled in the workplace resulting in better service delivery with better outcomes.*

## Resilience Toolkit

Students are exposed to Tools to further build inner authentic strength and resilience through connection to values, talents, perception and passion.

*Students learn to use these tools that are ultimately life changing, resulting in a more focussed, engaged, and connected team member with a toolkit to share, relevant to their clients.*

# Additional Details

## Qualification Description

### CHC33021 Certificate III in Individual Support

This qualification reflects the role of individuals in the community, home or residential care setting who work under supervision and delegation as a part of a multi-disciplinary team, following an individualised plan to provide person-centred support to people who may require support due to ageing, disability or some other reason.

These individuals take responsibility for their own outputs within the scope of their job role and delegation. Workers have a range of factual, technical and procedural knowledge, as well as some theoretical knowledge of the concepts and practices required to provide person-centred support.

The skills in this qualification must be applied in accordance with Commonwealth and State/Territory legislation, Australian standards and industry codes of practice.

To achieve this qualification, the candidate must have completed at least 120 hours of work as detailed in the Assessment Requirements of the units of competency.

No licensing, legislative, regulatory or certification requirements apply to this qualification at the time of publication.

Diploma of Community Services

Diploma of Leisure & Health

Since 2005, we've supported organisations to build their teams to confidently support their clients and community, and we've supported our students to gain the qualifications they need so that they can take the 'next step' in their lives.

My passion for training that results in workplace change, led to the research and starting of Warner Institute. The development of our Reason for Being and then the Warner Institute Whole Person Learning Model have become the driving force for everything we do. Our unique Whole Person Learning Model understands that each person is unique and learns differently. It is designed so that students grow in self awareness, confidence & resilience, becoming empowered to deliver their new best practice skills and knowledge

learned as part of their courses. With our support, they apply this in their workplace until it embeds their every day practice.

I really appreciate the success stories of our graduates and the Warner Institute Alumni. So many stories demonstrate how our students new learnings have improved their lives and their clients lives.

Many of our students start out anxious and unsure about their capability to study. Post study they are now empowered in so many ways and it brings joy to our team to see their new found confidence as they graduate.

This continually reinforces to me, the value of driving our business decisions based on our Reason for Being.
