

Performance since Inception: 0.9%

Stable Return AMC

The Stable Return AMC offers investors access to a portfolio of exclusive, institutionally dominated, and traditionally hard-to-access funds, characterized by low correlation to global equity markets and an absolute return-oriented investment profile. The strategy aims to deliver consistent returns comparable to balanced portfolios while significantly reducing drawdown risk. Investments span differentiated and specialized areas, including royalties, infrastructure, specialty financing, private credit, catastrophe bonds, and a variety of hedge fund strategies.
