

OUR VALUES

Environmental and Social Commitments

We are living in a new era, more conscious and more responsible, where every action matters. In this spirit, we strive to put simple yet sincere commitments into practice, guided by the desire to reduce our impact and contribute positively to our environment.

Waste & Resource Management

- All light bulbs are energy-efficient.
- Linen and towel changes are left to guests' discretion.
- All our waste is sorted and recycled.
- To limit food waste, we partner with the Too Good To Go app.
- Paperless policy at reception.

Solidarity & Social Commitment

- A social and environmental policy is implemented within our team.
- We collaborate with Solikend, a solidarity booking platform that donates 100% of the cost of stays to charities.
- We collaborate with Café Joyeux, which promotes employment for people with disabilities.
- Our unused guest amenities and linens are donated to the Hôtels Solidaires association.

Suppliers – Food & Beverage

- Most of our breakfast and Tea Time products are locally sourced and organic (vegan sweets, gluten-free Parisian cakes, local honey, coffee roasted in Paris, etc.).
- Our drinks menu features natural or organic wines and local beverages such as La Parisienne beer, MXO cocktails, and Alain Milliat artisanal juices.

Suppliers – Accommodation

- All cleaning and hygiene products are selected from environmentally friendly ranges.
- Ozonated water and white vinegar make up 90% of the products used to clean our rooms.
- Our bathroom products are provided in large formats to reduce packaging.

And we love feedback or ideas on how to improve!
