

Boulder

Online addiction care on your terms

Real help for alcohol and opioid use — right from your phone.
Our door is always open.

You set the goals and we adapt to them. Recovery looks different for everyone. We'll never ask you to stop using to get care, and we'll never drop you for missing a visit or returning to use.

Virtual clinic
available statewide,
100% online

Supports people
struggling with
opioids and alcohol

Supports adults 18
and older, including
pregnant people

What we help with

You won't do this alone. You'll have
a whole team in your corner.

- **Opioid treatment.** Including fentanyl, pain pills, and kratom. We prescribe Suboxone or a monthly shot to ease cravings and withdrawals.
- **Alcohol treatment.** Whether you want to cut back or quit, we'll meet you there.
- **No clinic visits.** We prescribe FDA-approved medications online and support home-based urine screens.
- **No therapy required.** We keep things simple and meet you where you are.

How it works

All you need is a smartphone
and internet to get started.

1

Get set up.

Download the Boulder Care app or call
(888) 720-2236.

2

Meet a provider online.

Join our virtual waiting room and get seen
within minutes.

3

Start the same day.

We'll send a prescription to your local
pharmacy, often that same day.

Get started today

We accept all major Medicaid plans, Medicare, and most commercial insurance.

PATIENTS: Scan the QR code to download the app and enroll. Or call (888) 720-2236
