

Pago International Pty Ltd

ABN: 40 613 903 816

Pago Product Stewardship Policy

Product Stewardship is an approach that acknowledges that all those involved in producing, manufacturing, selling, using and disposing of products have a shared responsibility to ensure their environmentally sound management.

As part of our ongoing commitment to lessen our environmental impact and divert materials from landfill, Pago have made a commitment to take back and refurbish and or recycle Flash, Matrix, Enduro, Air Form, Pinnacle and Radar III task chairs.

Flash, Matrix, Enduro, Air Form, Pinnacle and Radar III have been designed for disassembly to ensure all unbroken, salvageable individual parts can be reused or most non-salvageable parts can be recycled

Please contact our Head Office to initiate the take back of your used task chair.

A handwritten signature in black ink, appearing to read "Goldberg", with a large, stylized loop at the end.
