Core Competencies

Life-Cycle Logistics

- + End-to-end logistics solutions for seamless maintenance and sustainment of critical military equipment across all environments.
- + Supply chain strategies to enhance operational readiness and cost-effectiveness for government defense systems.
- + Expertise in OCONUS logistics, supported by a robust back-office team with rigorous personnel screening, security clearance mgmt., and a government-approved accounting system.

CBRNE & Force Protection

- + Integration of sensor and biometric systems with comprehensive support services
- + Training programs and technological solutions that enhance military personnel's resilience and preparedness in high-risk operational scenarios.
- + SME capabilities across Science, Technology, Operations, and OCONUS deployment to deliver comprehensive CBRNE threat mitigation solutions.

B-to-B Development

- + Facilitation of strategic partnerships between government agencies and private sector defense contractors, creating collaborative ecosystems that drive technological innovation and operational efficiency.
- + Consultative services that help bridge technological gaps, support knowledge transfer, and enable integrated solutions that address complex national security challenges.

Prime Vehicles - CBRN IDIQ, DEVCOM CBC STEPPS, JPEO JE-CLASS II (Domains 1 & 2), SeaPort, MDA SHIELD

DCAA Approved Accounting System | CMMC 2 | NIST SP 800-171 | FAR/DFAR Compliance

FAR 19.1307 - Price evaluation preference for HUBZone small business concerns. Ten percent price evaluation preference in full and open contract competitions.

HUBZone set-asides - The HUBZone program fuels small business growth in historically underutilized business zones with a goal of awarding at least three percent of federal contract dollars to HUBZone-certified companies each year.
