

Our Services

Sponsored Maps + Points:
Turbocharge Your Revenue

Are you looking to collaborate with local businesses for sponsorship opportunities? Supercharge your earnings by offering sponsorships on your maps and highlighting specific map points for increased traffic.

With map sponsorships, you can prominently display a sponsor's logo on your content, add their personal brand elements to custom category icons, and include links throughout your map to their channels.

Create avenues for local businesses to expand their presence by featuring their points on your map. Notably, featured points receive 70% more clicks compared to standard points!

And the cherry on top? Gain robust insights into your economic impact with Proxi's advanced analytics portal. By capturing views, clicks, and actual checkins, you'll have tangible results to report back to your sponsors, showcasing the positive influence your map has on local businesses.

Paywalls: Your Content Guardian:

Unlock the full potential of your map's valuable content - don't just give it away for free! Our paywall feature empowers you to monetize access to your content with gated links. By configuring a payment gateway for your map, you can allow viewers to make payments to access all the locked points on your map. When your sales hit a specific milestone, you will receive a portion of the revenue from Proxi. It's time to put your content to work!

Paid Passport Events: Proxi is excited to announce a new revenue-generating feature for our map creators: the ability to sell access to Passport Events directly through their maps. Now, creators can easily monetize their interactive experiences—whether it's a community scavenger hunt, local tasting tour, or exclusive shop-local challenge—by charging participants to join. This seamless, built-in payment option makes it simple to set up, collect payments, and deliver engaging, rewards-based adventures that drive both participation and profit.
