

GORDON RESEARCH CONFERENCE

Physics of Viruses and Protein Cages

Exploring the Intersection of Molecular Design, Dynamics
and Biological Function

JANUARY 11-16, 2026

LOCATION:

Renaissance Tuscany Il Ciocco
Lucca (Barga), Lucca, Italy

CHAIRS:

Frank Sainsbury,
Griffith University
Danielle Tullman-Ercek,
Northwestern University

VICE CHAIRS:

Marta Bally,
Umeå University
Juan R. Perilla
University of Delaware

KEYNOTES:

Don Hilvert,
ETH Zurich
Trevor Douglas,
Indiana University

SPEAKERS:

Allie Obermeyer, Columbia University
Mauri Kostiaainen, Aalto University
Claudia Schmidt-Dannert, University of Minnesota
Kevin Solomon, University of Delaware
Seung-Wuk Lee, University of California, Berkeley
Susan Daniel, Cornell University
Daniel Hurdiss, Utrecht University
Rafael Sanjuan, University of Valencia
Ganesh Anand, Penn State University
Angela Gronenborn, University of Pittsburgh
Jodi Hadden-Perilla, University of Delaware
Chelsea Fries, University of Washington
Stefanie Frank, University College London
Sharmistha Sinha, Institute of Nano Science and Technology
Alena Khmelinskaia, Ludwig Maximilian University of Munich
Roya Zandi, University of California, Riverside
Carolyn Mills, University of California, Santa Barbara
Tim Chiang, Lawrence Berkeley National Lab
Charlotte Uetrecht, University of Lubeck
Erica Hartmann, Northwestern University
Natalee Newton, University of Queensland
Feng Li, Wuhan Institute of Virology
Mark Blenner, University of Delaware
Angela Steinauer, Swiss Federal Technology Institute of Lausanne
Michael Hagan, Brandeis University
Hadrian Peyret, University of Nottingham
Sieren Lim, Nanyang Tech University
