

# Micro training. Major impact. Forestry micro-credentials.

Short, sharp training your team can fit around the mahi, and a nationally recognised credential at the end of it.

## Five programmes to choose from:

Chainsaw Use in a Non-Forestry Production Environment

Chainsaw Use in Forestry Production

Forestry Operations – Health, Safety and Environment

Forestry Operations – Plant Plantation Trees

Forestry Operations – Log Scaling

## Why micro credentials?

- On the job – built around the mahi
- Helps attract and retain good people

- Builds a safer, more capable team
- A pathway to further training and qualifications.
