USA GENERAL

Property Tax Breaks for Data Centers – Let Us Count the Ways

This article looks at the downsides of data centers locating in an area, especially the foregone property tax. The article examines ways in which property tax is reduced/eliminated in order to encourage data centers to locate in a district including, PILOT Agreements (Payments in Lieu of Taxes), Tax Increment Financing (TIF), Enterprise Zones (EZs), Property Tax Rebates etc.

The article can be accessed via the following link:

<https://goodjobsfirst.org/property-tax-breaks-for-data-centers-let-us-count-the-ways/>

Data Centers Vs. Property Value: How AI Could Change The Price Of Your Home

This article reports on a recent study by George Mason University's Center for Regional Analysis found that houses in Virginia which were close to data centers experienced higher increases in value, even though AI data centers are not particularly welcomed by the general public. The article explains the findings.

The article can be accessed via the following link:

<https://www.bgr.com/2233364/do-data-centers-hurt-property-value-explained/>

10 Worst States in America for Property Taxes

This article provides the 10 states with the highest effective tax rate - the typical share of a home's value that homeowners pay in property taxes, expressed as a percentage.

The article can be accessed via the following link:

<https://www.aol.com/articles/10-worst-states-america-property-093000000.html>

Return of the Property Tax Revolt

This article provides the opinion of a research fellow who considers that the current property tax revolt reflects a breakdown in the relationship between what taxpayers pay and what they believe they receive. The researcher looks at the history of, and what can be learnt, from the tax revolts of the 1970s.

The article can be accessed via the following link:

DELAWARE

Property tax bill becomes law without governor's signature

This article refers to House Bill 462 which will become law, authorising school districts to tax residential and non-residential property at different rates. The article explains that there is some dissent surrounding the provision that apartments and other residential rental communities are treated as commercial property and will be charged at a higher rate.

The article can be accessed via the following link:

<https://www.capegazette.com/article/property-tax-bill-becomes-law-without-governors-signature/353979>

FLORIDA

Fort Myers looking at 10% property tax hike

This article reports that Fort Myers is considering raising the property tax by 10% next year, which would require a two-thirds vote by the council. This article looks at the value of new construction and also a drop in the value of existing property. The mil rate is compared to other counties and reasons for the likely increase discussed.

The article can be accessed via the following link:

<https://eu.news-press.com/story/news/local/2026/08/01/property-owners-in-fort-myers-likely-to-see-property-tax-rate-hike/9119557007/>

Property tax relief? Spare us, please

This article examines how Florida residents are currently taxed and concludes that if Amendment 3 were to be passed (increasing property tax relief for homeowners), what would happen to public services.

The article can be accessed via the following link:

<https://eu.theledger.com/story/opinion/columns/2026/08/02/floridas-property-tax-relief-will-be-far-too-costly-bruce-anderson/91104192007/>

Florida judge rules property tax amendment misleading, orders rewrite

This article reports that the Governor has been ordered by a judge to rewrite his proposal to raise the homestead exemption to \$250,000 before it can be allowed on the ballot, due to the misleading/incorrect and political language used.

The article can be accessed via the following link:

PENNSYLVANIA

What is the ‘Dark Store Theory’ and how is it costing Pennsylvanians more in local taxes?

This article explains what the dark store theory is - a local tax practice that allows large retailers to have their properties assessed as vacant reducing the value by not reflecting their occupation. The article hears from a Pennsylvania Senator trying to ban the practice and make the operators pay a fair amount of property tax.

The article can be accessed via the following link:

<https://www.wtaj.com/news/regional-news/what-is-the-dark-store-theory-and-how-is-it-costing-pennsylvanians-more-in-local-taxes/>

Have you heard of the “dark store theory” for tax assessment? It’s a doozy

In addition to the points raised in the previous article, this article also looks at the practice of some municipalities which freeze property tax assessments whilst appeals are taking place, which in some instances takes years thereby increasing the property tax burden onto residential property owners.

The article can be accessed via the following link:

<https://www.tristatealert.com/have-you-heard-of-the-dark-store-theory-for-tax-assessment-its-a-doozy>

New Philadelphia Real Estate Tax Assessments Contrast Challenges Facing Commercial Properties

This article advises commercial property owners in Philadelphia to look at their recently released revaluation assessments and consider whether, especially for offices, the values reflect the elevated vacancy, reduced demand for space, increasing operating expenses, expiring leases, conversion costs, and sales at substantial discounts to earlier valuations. The article provides steps that should be undertaken to review values.

Eagle Mountain residents push for referendum following 183% property tax increase

This article considers the concern of residents of Eagle Mountain following the approval of a 183% city property tax increase. The article explains that a group of residents opposed to the increase and the lack of transparency concerning how the revenue would be spent, are calling for a referendum on the matter.

The article can be accessed via the following link:

<https://www.ksl.com/article/51610115/eagle-mountain-residents-push-for-referendum-following-183-property-tax-increase>

Neighbors of a \$1.5 billion Meta data center revolt over 183% property tax hike — after the tech company gets a 40-year break

This article follows on from the one above and relays that part of the outrage regarding the 183% proposed property tax increase is caused by the fact that a Meta data center in the municipality was given a 100% personal property tax waiver and 80% of its real property taxes for a period of 40 years from when it was built in 2018. The article reports that this is equivalent to between \$150 and \$750 million in foregone revenue over the period.
