

BH Partner Network - Employment Opportunities Newsletter

June 2026

We work with a wide range of industry partners and supporters to enhance your transition to civilian life, offering opportunities to gain civilian experience through introductions to employers who value and actively support the Armed Forces community.

Before you explore an opportunity

Please contact Helen Faulding first at helenf@buildingheroes.org.uk. Do not approach employers directly, as some opportunities are coordinated through Building Heroes introductions and partner relationships.

At a glance

Partner / route	Opportunity type	Location / coverage
Building Heroes Property Services	Self-employed property maintenance, repairs, retrofit and snagging	East Midlands; Braintree/Colchester

Partner / route	Opportunity type	Location / coverage
FastFix Joinery	Roofing / joinery pathway	North East
FTG	Transition and specialist employment pathways	National
Dartford Borough Council	Surveying and estates maintenance roles	Kent
Fry Group	Labouring and construction operations	London, South East and national operations
Willmott Dixon	Work placements and supply-chain opportunities	National

Building Heroes Property Services (BHPS)

BHPS is a property-services company made up of skilled tradespeople who are ex-military servicemen and women and, in some cases, their families.

- **Route:** Self-employed basis.
- **Candidate requirements:** CSCS card, DBS, Asbestos Awareness and registration as self-employed.
- **Opportunity areas:** Property maintenance, repairs, retrofit and improvement services, including new-build snagging.
- **Current vacancies:** General maintenance / repairs operatives in the East Midlands and Braintree/Colchester areas.

Vistry Group

Vistry Group is one of the UK's leading national housebuilders, with Linden Homes, Bovis Homes and Countryside as their main brands. The group delivers homes and sustainable communities across the country and offers a broad range of opportunities, from site management and construction leadership to technical, commercial and customer-facing roles.

Current vacancies can be found on the Vistry careers page: [Vistry careers](#)

Zest

Zest is a rapidly growing UK charge point operator that aims to accelerate EV adoption by delivering accessible, long-term EV charging infrastructure for communities, businesses and local authorities.

Current vacancies

Corporate Finance Associate Director [View role information](#)

Supports Zest's Finance Team by producing high-quality financial reporting and analysis for lenders and external stakeholders. The role also supports internal reporting and forecasting to inform decision-making.

Cloud Support Engineer [View role information](#)

Leeds based

Helps establish and run operational processes that keep the cloud platform stable, secure and well managed. This is a hands-on role combining support, platform improvement, alerting, incidents and observability, including AWS and Grafana.

Electrical Site Supervisor [View role information](#)

London based

Supervises onsite construction of multiple EV projects to completion, supporting smooth delivery, CDM duties where applicable, monitoring, audits and health and safety procedures throughout the construction phase.

CareerForces

CareerForces UK is a socially responsible recruitment organisation that helps veterans and key workers move into meaningful civilian employment while supporting employers to recruit experienced, highly skilled talent.

Workplace Solutions Team Leader		£36,390	Bracknell	26 June 2026	
Workplace Solutions Team Leader		£45,000	London W10	26 June 2026	CV Library
Construction PM / Section Engineers / Site Engineers		£350 to £450 per day	Plymouth	TBC	

Lovell / Morgan Sindall

Lovell is a UK housebuilder, part of Morgan Sindall Group, that designs, builds and refurbishes homes across the country. They deliver private-sale, affordable and shared-ownership housing, often working with councils and housing associations. Lovell focuses on sustainable construction, modern building methods and energy-efficient homes.

- National work placements and opportunities within Lovell and their supply chain.

Useful links: [Lovell careers](#) | [Morgan Sindall Construction careers](#)

Thakeham

Thakeham is a UK housebuilder and land developer focused on sustainable, low-carbon homes and community-led developments in southern England. They deliver private, affordable and retirement housing, often partnering with local authorities and housing associations to create well-designed, environmentally friendly neighbourhoods.

- Work placement opportunities with Thakeham and their supply chain around the South East area and in particular Southampton City Centre.

Current vacancies: [Thakeham current opportunities](#)

A & M Energy

A & M Energy is a successful 50-year-old independent energy solutions company based throughout the UK. With nine depots, over 300 employees and PAS accreditation, A & M Energy employs experienced installers and has installed insulation in over one million homes since 1973. The business has a strong focus on health and safety, quality and carbon reduction, supported by ISO 9001 accreditation.

Current vacancies

Trainee Loft Insulation Installer

£26,000-£40,000

This role offers high earning potential based on effort and continual development opportunities to improve technical knowledge. Candidates may work with housebuilders including Vistry Group, Baker Estates, Bloor Homes, David Wilson, Redrow and Cavanna Homes.

- Conduct pre and post inspections using reports to ensure property suitability.
- Complete all works in line with industry and company standards to achieve quality targets.
- Liaise with customers to explain the installation process and manage expectations.
- Proactively adhere to and advocate high safety standards and building codes.
- Work at other company depots when required.
- CSCS card is advantageous; A & M can apply for one if needed. A valid UK driving licence is required. Experience driving 3.5 tonne vehicles is preferred but not essential.

Insulation Installers (CWI)

A physical, site-based role involving cavity wall insulation work, customer contact, paperwork, safe working practices and travel to different sites.

- Drill holes to the specified drill pattern and through mortar joints, working off ladders or other access equipment.
- Fill hopper with compressed packs of mineral fibre and blow shredded mineral fibre into pre-drilled holes to complete the cavity fill.
- Re-point drilled holes externally and leave the work area clean, safe and clear of debris and packaging.
- Attend and pass ACOPs and CSCS training/tests as required.
- Load insulation material onto company vehicles, drive to sites and complete all relevant paperwork daily.
- Correctly install and complete tachographs if in charge of a 7.5 tonne vehicle.
- Follow reasonable work instructions, maintain a flexible approach to hours and complete administration duties in line with company procedures.
- Maintain a professional, courteous approach and strictly adhere to health and safety procedures.
- Candidate requirements include previous experience dealing with the public, three GCSEs or equivalent including English, numeracy and literacy, practical ability, initiative, teamwork, strong work ethic, presentability, physical fitness and a responsible approach to safety.
- The role involves working outside in all weathers, working at height and in confined spaces, lodging away from home when required, and DBS and DVLA checks.
- Working hours: 45 hours per week, Monday to Friday between 6.00am and 6.00pm with a one-hour unpaid break. Flexibility and occasional weekend work may be required.

Supervisor

The Supervisor reports to the Depot Manager and is responsible for the operational aspects of the branch, including technician management, compliance, vehicles, materials, quality and administration.

- Manage, motivate, recruit, train and develop installation Technicians, including inductions, technical training and Toolbox Talks.
- Ensure Technicians comply with company health and safety requirements and guidelines.
- Order, issue and account for PPE, insulation materials and associated items.
- Undertake visits and inspections to check installation quality and standards.
- Report surveying issues and support customer complaints through site visits and recommendations.
- Manage installation and inspection vehicles, including servicing, MOTs, repairs, driver licence checks, tracking devices, safety cameras and tachograph requirements.
- Maintain daily records, technician availability, equipment registers, health and safety registers, inspection records and training records.
- Ensure the warehouse is clean, organised and safe, and that waste materials are disposed of correctly.
- Report on sales forecast, support customer satisfaction processes, liaise with external agencies and manage stock levels.
- Maintain a flexible, professional and courteous approach and adhere to company policies, procedures and ISO compliance requirements.

Velocity and Archway Roadmaster

Velocity is a national highways maintenance and road repair specialist with operational hubs in Sunderland, Newcastle and Middlesbrough, delivering contractor work across the UK. Archway Roadmaster operates nationally, providing road repair services using advanced Roadmaster technology.

Operator roles

Role	Location	Office base	Responsibilities
Velocity Operators	Nationwide	Sunderland	Operate road patching machine; complete safety/environmental standards; daily/weekly reporting; vehicle checks; minor repairs and calibration; work with supervisors, colleagues and clients.
Archway Operators	Nationwide	Scunthorpe	Operate road patching machine; complete safety/environmental standards; daily/weekly reporting; vehicle checks; minor repairs and calibration; work with supervisors, colleagues and clients.

What is provided

Company	Provided
Velocity	Smartphone and/or tablet; subsistence up to £30 per 24 hours where applicable; company-paid accommodation when required. Travel to and from sites is arranged.
Archway	Smartphone and/or tablet; subsistence up to £30 per 24 hours where applicable; company vehicle and fuel card.

Rates

Status	Rates
Velocity trainee	Monday-Friday £14.26; Saturday-Sunday £21.39; Bank holiday £28.52

Archway once signed off Class 1	Monday-Friday £18.04; Saturday-Sunday £23.87; Bank holiday £31.83

Benefits

- 25 days annual leave plus bank holidays; if a bank holiday is worked, time is received back in lieu.
- Holiday buy scheme with the option to buy five extra days of annual leave.
- Enhanced company sick pay after 12 months' service.
- Help@hand app offering remote GP appointments, savings and discounts on high-street retailers.
- Staff referral scheme with a £250 Love2shop voucher.
- Monthly staff draw where employees can win a £100 voucher.

Velocity - Fleet Co-ordinator

40 hours per week, 08:00-16:30 Monday-Friday | Fixed-term maternity cover | Sunderland office based

Provides daily administrative support to the Fleet Manager to ensure smooth operation of the vehicle fleet. The role supports proper maintenance, legal compliance, efficient operation, accurate records and coordination of fleet activities.

- Schedule and coordinate regular maintenance, servicing and inspections for the fleet.
- Maintain up-to-date vehicle records and liaise with internal teams and external service providers for repairs. Work with the Fleet Manager to ensure repair bookings align with operational needs and minimise downtime.
- Provide general administrative support and cover when the Fleet Manager is on annual leave.
- Essential: strong organisation, time management, communication, interpersonal and administrative skills; attention to detail; ability to work independently and as part of a team; ability to thrive in a fast-paced environment; willingness to adapt; computer literacy.
- Desirable: previous experience in an automotive or fleet environment.

Amey

Amey is a major UK infrastructure and engineering services company that designs, maintains and operates critical assets such as roads, rail systems and public facilities. With thousands of staff across the UK, it provides highways maintenance, rail engineering, consultancy, asset management and facilities services, with a strong focus on sustainability and improving public infrastructure.
