

From Legacy to Future Proof with Zero Downtime:

MACDONALD, DEVIN, MADDEN, KENEFICK & HARRIS + VELO IT GROUP

MacDonald, Devin, Madden, Kenefick & Harris, a Dallas-based litigation firm has been in operation since 1987. Over the years, the firm has evolved as a forward thinking firm. When IT changes were on the horizon, Managing Partner John Kenefick knew his law firm couldn't afford any disruption. That's why, when it came time to modernize IT systems, they turned to Velo IT Group for guidance.

"They flagged what was coming and helped us prepare—telling us what we'd need, what we wouldn't, and how to approach the transition," said Kenefick.

Over the past few years, Velo led the firm through two major cloud migrations: first with Microsoft Office (including Outlook), and more recently with their entire file management system. Both transitions were seamless.

"We didn't have a stop-down moment. On the

Monday we switched systems, nothing broke," Kenefick shared. "Velo was there, and so was the vendor they recommended. It just worked."

What stood out most was the foresight. "They came to us early and said, 'This is what's coming down the pipe,'" said Kenefick. "They helped us prepare—and that made all the difference."
