# QUOTE AND ONBOARDING CHECKLIST

## STEP ONE - LEAD TRANSITION

- ❖ Take quotes immediately
- ❖ Sell an appointment or Good Neighbor Connect
- ❖ Stay in the affirmative

## STEP TWO - FACT FINDER

- ❖ No objections, no advice
- ❖ Ask all questions in application, enter accurate data
- ❖ DSS on all quotes

## STEP THREE - COVERAGE EXPLANATION

- ❖ Use clear, simple examples
- ❖ Continue fact finding with liability and medical payments
- ❖ Explain all coverage

## STEP FOUR - PRESENTATION

- ❖ Emotion, Credibility, and Logic
- ❖ Present the correct three or four lines of business based on need
- ❖ Do not present without knowing their total price
- ❖ Premiums monthly, savings annually
- ❖ Overcome objections by presenting down to daily and looking for logical trade-offs
- ❖ Low/high with deductibles
- ❖ Pay yourself first
- ❖ Do the math for them, do not use % for discounts
- ❖ Explain what products do, not what they are called. No insurance jargon
- ❖ Present advantages of working with us...what's in it for them
- ❖ Local, claims handling, policy features and benefits, systematic processes, free financial guidance

## STEP FIVE - CLOSE

- ❖ Simplicity and convenience
- ❖ Cancel with them, do not let them do it on their own
- ❖ Do not give proof of insurance without all signed documents
- ❖ Extend the opportunity with referrals and reviews
- ❖ Schedule New Meeting in Outlook at point of sale for review

THE FIVE STEP  
**CUSTOMER EXPERIENCE**  
STEP THREE - COVERAGE EXPLANATION

**Liability and Uninsured**

“The most important part of your policy is your liability. It protects your current assets and future income. Currently with (current company) you have \$50,000 if you injure one person in an at-fault accident to cover court costs to defend you and any settlement from that case like medical bills or loss of income. You have \$100,000 for multiple people that are injured and \$50,000 for the other vehicles or anything you hit along the road. You’ll see those same numbers again on your policy for underinsured and uninsured motorist. It covers you if someone doesn’t have any insurance or enough insurance to cover your damages.”

-----

THE FIVE STEP  
**CUSTOMER EXPERIENCE**  
STEP THREE - COVERAGE EXPLANATION

**Comprehensive and Collision**

You have two optional deductibles that fix your vehicle in an accident. One is “Other than collision” which is hitting a deer, glass damage, hail damage, or a tree falling on your car. These are considered out of your control. The second deductible is “Collision” which covers damage to your vehicle if you hit another vehicle or a stationary object and you’re found at-fault. Do you know what your deductibles are right now?

## STEP THREE - COVERAGE EXPLANATION

### Medical Payments

The next available coverage is medical payments. We typically try to coordinate that with your benefit program. Do you currently have health insurance at (their job)?

If yes, do you know what your deductible is? Do you have a health savings account?

Do you have any other benefits through (your job) or (current insurance company) that replaces your income if you're injured in a car accident or any other reason?

Do you have any life insurance through (current company) that you own? Do you have any through (your job)?

Do you have any supplemental health like AFLAC that would cover you in an accident?

## STEP THREE - COVERAGE EXPLANATION

### Rental Car & Emergency Roadside

“Another available coverage is rental car reimbursement. If you had a covered claim, would you want us to provide another car for you to drive while your car is being repaired?”

If the number of vehicles is less than or equal to the number of drivers, rental car coverage needs to be recommended.

“Do you have AAA or some other emergency roadside?”

Yes

“Do you know roughly how much you pay for that every month?”

No

“Do you need us to tow your vehicle or unlock your keys in an emergency?”

STEP THREE - COVERAGE EXPLANATION

**S Coverage**

“If you pass away in an accident, we’ll give your family \$10,000 to cover final expenses and it doubles to \$20,000 if you are wearing your seatbelt. Everyone is eligible regardless of health or age. Is that something you want to include in your policy?”

## STEP FOUR - PRESENTATION

### Sample Presentation

“So, Ms. Customer, the first thing we did was increase your liability coverage from the state minimum of \$30,000 if you injure one person to \$50,000, from \$60,000 to \$100,000 for multiple people, and we’ll cover most vehicles in an accident up to \$50,000 instead of \$20,000. We also increased the coverage for you, if someone injures you who doesn’t have insurance so now instead of \$50,000, we’ll give you \$100,000. We left your deductibles the same and added rental car coverage, so you’ll have a car to get to work and get your son to school if you have a claim. We also added a life insurance benefit for you to cover your final expenses and leave some money to your son in case you pass away in a car accident. We’ll also take of your personal property like your TV, electronics, clothes, and furniture for up to \$40,000. We’ll take care of your MacBook for anything except wear and tear with a \$100 deductible. We’ll also pay for you and your son to live somewhere else if you have a claim on your house and can’t stay there. You said it was important that your son was able to go to college if something happened to you, so we’re going to provide him with a benefit of \$300,000 for the next 20 years to make sure he’s properly protected if you pass away. Right now you’re paying \$150 per month with your current company for only minimal car insurance. It’s only going to cost you an additional fifty cents per day to increase your coverage on the car, add the personal property coverage for your home and computer, and make sure your son’s college is taken care of and other living expenses if you were to pass away, for a total of \$165 per month.”
