

Global Missions Fund Annual Report to the Diocesan Convention 2025

It is with chagrin that this report opens with the same appeal that closed the report submitted to the 2024 convention: an urgent call for new members to join the committee and, more pressingly, for more requests for support from the Fund.

In making this appeal the committee notes with satisfaction that many ministries, recipient of past funding, flourish still, others have wilted, but the work of the sower is ongoing. *Matt 13:3* Recent awards can be viewed at <https://airtable.com/appGF5kLGtXEVMsCH/shrKE829NgsAjfWQX>

The domestic policies that have grievously afflicted newcomers among us has amply justified the expansion of the purview of this committee to ministry in service of resettlement of refugees/immigrants within the diocese – an expansion which has yet to be reflected in the number of applications for support of such ministries from this Global Missions Fund.

Sandy Muspratt
