

WORKING IN DISASTER RECOVERY

Awareness level training course

This two-day course examines the overarching and disaster-specific objectives of recovery, the effects of emergencies on communities, and what to expect in the challenging initial days of recovery. It also covers the processes for planning, implementing, and evaluating state recovery projects and programs, the governance structure and roles in state recovery, best practice for communicating in recovery, and self-care strategies for people working in this field.

Prerequisites:

- [Introduction to Disaster Recovery](#)

TARGET AUDIENCE

Government agencies and service providers working in emergency management and disaster recovery in WA.

KEY SUBJECT AREAS

- What is recovery?
- Recovery objectives
- Recovery governance
- What to expect – the first few days and months
- Recovery program cycle
