Farewell to our Sunflower Field!

A heartfelt thank you to everyone who visited!
We've loved seeing your photos & reading your comments!

Seeds of Awesomeness

Now, as the petals make their grand exit, it's time to check out the sunflower's center stage: the seeds. Yep, that's right, it's like the encore of the sunflower show. The seeds form this crazy cool geometric pattern that's like nature's way of dropping the mic. And guess what? Each of those seeds holds the potential for a new sunflower shindig next summer. Talk about keeping the good vibes going!
