We've Got Your Bulbs!

Planting Tips for a Blooming Spring

- **Timing:** Plant bulbs before the ground freezes—ideally by late October in Ontario.
- **Location:** Choose a spot with well-drained soil and full to partial sun.
- **Depth:** Plant bulbs about 2–3 times as deep as the bulb is tall.

- **Spacing:** Leave enough room between bulbs (usually 3–6 inches) so they don't compete.
 - **Watering:** Water well after planting to help roots establish.
