# Congrats On Your Engagement

**Being in love is the best feeling in the world, and your wedding day will be the most incredible day of your life.**

Capturing a wedding day is no easy task. It takes experience, flexibility, reliability and so so much more. No one expects you to know all the ins and outs of the process, but this guide should help you to wrap your head around it all.

Above all, I value **authenticity**. There are a million reasons why you might feel pressure to do this or do that on your wedding day, but I hope one thing - That you experience the full authentic love of you and your partner exactly as you feel it. I create wedding images with this goal in mind.

Photography is an industry that's a really unique blend of technical and creative, but an often overlooked aspect of photography is subject-creator connection and it also is one of the most important aspects. When a client feels comfortable with a photographer, that will show in the images, as will the opposite.

When you review this guide, and look at the photos within, look for those authentic moments. The moments only capturable by someone who is present, attentive, and focused on telling **your** story. Thanks so much for taking the time to review this guide - Your time is valuable in this process and I appreciate it greatly.

When you choose to work with me as your wedding photographer, you can expect a personalized, professional experience that is focused on capturing the special moments and emotions of your big day in their entirety. Here is an overview of my process and timeline, and what you can expect when working with me:

- 1. Pre-booking consultation.** Before you officially book me as your wedding photographer, we will schedule a pre-booking consultation to discuss your vision for your wedding photos and to answer any questions you may have about my services. No hard sells, just a chat over coffee or drinks.

- 5. The Delivery** My favorite day. Within six weeks of your wedding you'll get your online gallery to share with friends and family and start your challenging process of picking your favorites.

## SESSION PREP

# 10 things to remember for your engagement session.

Preparing for your engagement photo session can be both exciting and nerve-racking. But with a little planning and preparation, you can ensure that your engagement photo session is perfect. Here are 10 tips to help you prepare for your photo session.

1. Choose the right attire. Consider the location of your photo session and the overall aesthetic you want to achieve. Choose outfits that will make you look and feel your best, and that will complement each other and the background.
2. Stay hydrated. Drink plenty of water in the days leading up to your photo session. This will make sure you have nice radiant skin. I mean - hydration is a good thing any day, right?
3. Relax. This can be a daunting experience, especially if you are not used to being in front of the camera. Understand that we both have the same goal in mind here - to make you look and feel your best!
4. Let me guide you. I'm here to help you, so don't be afraid to ask for guidance or advice. Don't worry about poses or angles. Just relax and trust in me. I'll make sure that you both are feeling comfortable, and looking your best.
5. Communicate. Before the photo session, let me know about any concerns you might have or ideas you have. I want to make sure that your expectations of your shoot become the reality of your shoot!
6. Focus on you. Your engagement session is about you so avoid distracting elements that would take away from capturing the love you share.
7. Choose the right location. The location of your engagement photo session can have a big impact on the look and feel of your photos. Choose a location that is meaningful to you and your partner, and that reflects your personalities and interests. This can be a natural outdoor setting, a cityscape, or a more formal or elegant location.
8. Bring multiple outfits. If you are unsure of what to wear, or if you want to try multiple looks, consider bringing multiple outfits to your photo session. This will give you more options and flexibility, and will allow you to try different styles and colors. Just make sure to coordinate with your partner, and to choose outfits that complement each other.
9. Plan for the weather. If you are having your engagement photos taken outdoors, make sure to plan for the weather. Check the forecast in advance, and bring appropriate clothing and accessories, such as jackets, umbrellas, or sunscreen. If the weather is not conducive to outdoor photos, we'll coordinate a plan to handle all the troubles.
10. Most importantly: Have fun! Your engagement session is designed to capture the love you share and give you photos to use for invites and websites, but you should enjoy the experience too. Let's go on an adventure together and capture your story.

### Caroline and Caelan explored the outdoors

for their engagement session at the Alberton Gorge.

The thing I love most about shooting weddings is the people that I meet and learning who they are. When these two wanted to hike in at sunrise to explore the cliffs and jump into the river, I couldn't say no. I can't wait for their wedding in the fall of 2025!

**"Ahh we love them!!  
... they are amazing we  
are so happy! THANK  
YOU!!!!"**

# The questions everyone needs the answers to.

### 1. How would you describe your photography style?

I would describe my wedding photography style as editorial / documentary. I aim to capture the natural emotions and moments of your wedding day, while also creating beautiful, artistic photos that you will treasure for years to come. I edit in a style that minimizes major color shifts to keep your colors vibrant, bold, and authentic, leaving you with images that will feel natural and timeless.

### 2. How far in advance should I book you for my wedding?

The sooner the better. I start to get bookings around 12 months prior to dates, but each day and month has different demand. Weekends book faster than weekdays, and winter books slower than summer and fall, but my availability always has a few openings. Want to know if I'm available on your date? Let me know! If I'm not available, I'm happy to refer you to other photographers I trust in the industry.

### 3. How many photos will I receive?

The number of photos you receive varies quite a bit, because every wedding is different. I shoot all day, and if an image is worth having, you'll get it. For a ballpark estimate, I generally shoot around 10,000 photos in a wedding day and deliver around 1000. That being said - I focus on quality images and making sure that the images you get are the images worth getting.

### 4. What if your equipment fails or is lost on our wedding day?

Ahhh - The stuff photographers have nightmares about! As a professional photographer, I understand the importance of having reliable equipment, and I take every precaution to ensure that my gear is in good working order. However, I also understand that equipment can fail or be lost or stolen and I have backup gear and systems in place to handle these situations. I always bring multiple cameras (literally...five of them), lenses, and flash units to every wedding, and I always shoot with two cameras all day, so if one fails in a vital moment, I won't be without a working camera. I also have backup storage systems for your photos, and do everything possible to ensure that your photos are safe and secure, even in the unlikely event of a failure or loss.

### 5. Do you offer albums or prints?

Yes, I offer a variety of album and print options for my clients. All of these items are offered separate from my wedding package so that you can customize your print package to your needs. Importantly, you're not obligated to order prints through me. The option is yours.

### 6. What is your wedding package retainer?

I require a non-refundable retainer of \$1500 to secure your date and book your wedding photography package. This retainer will be applied towards your total package price, and it will ensure that I am available for your wedding day. The remaining balance is due any day before the wedding date. After the retainer is paid, you're welcome to pay the remaining balance as you see fit. Some folks pay it all at once, some folks make monthly payments. I'm happy to set it up for you as you would like!

## AWARD WINNING

# Don't take it from me. Take it from them.

**Victoria P.**  
Married Sept. 2022

Dennis was such a positive and bright person to work with. He was accommodating, open, and obviously has a lot of passion for what he does. He made everyone feel comfortable and his posing and demeanor were naturally easy to work with. His commitment to his work is truly unrivaled, and I couldn't have asked for a more amazing photographer for our wedding!

**Pepa R.**  
Married May. 2023

Dennis is one of the most thoughtful, professional, and unflappable humans I've ever met. When we first met with him to discuss photographing our wedding, we knew he was the right person for us. His talent is obvious- just look at his portfolio- but his personality and ability to capture candid moments are what drew us to him. Neither me nor my husband are naturals behind a camera, but Dennis kept us comfortable the whole time. He showed up in the dark for a sunrise engagement shoot, made sure we were in the loop heading into the wedding, and spent quite nearly the entire wedding day with us. He was also extremely efficient for the obligatory family photos and I know everyone was very grateful for his direction. We had many comments about how awesome he was throughout the day. We can't wait to see our photos and look forward to hiring him again. Thank you Dennis you are the best!!

**Kaitlin S.**  
Married Aug 2020

Dennis is AMAZING! Not only are his pictures fantastic, he is fun, professional, and easy to work with. From the initial contact, to reaching out and answering questions before the wedding, to the wedding day, to when we received our photos, he made everything with our pictures and big day seamless. His pricing is very reasonable and honestly some of the best money we've ever spent :) Look no further, you've found your perfect wedding photographer!

**Mackenzie + Zach**

Married May 2023

MY GOODNESS! There are not enough words in this world to describe how great Dennis was. He was kind, fun, caring, & so personal!! Dennis was such a pleasure the entire time & had the best attitude throughout EVERY moment. As the bride I was so anxious the entire time because I truly just wanted to be sure we had time for everything & he was so reassuring — even carried a water bottle for me in his back pocket. A whole week married today & my husband & I still can't stop talking about how AMAZING Dennis was!! 1000000000000+/10 recommend! :)

**Taite B.**  
Married Oct. 2022

If I could give Dennis ten stars, I absolutely would! He is THE BEST photographer out there! If you want your wedding photos to feel like YOU as a couple - your story, your love, all the emotions - hire Dennis. His photos will tell the story of your whole wedding day and you'll want to look at them obsessively because they're all SO good. Dennis made everyone feel so comfortable, even our groomsmen who would normally shy away from any type of photo. For family and bridal party photos he kept the process timely and organized so we were able to enjoy more time celebrating and less time posing for the camera. Dennis is so great he is even stepped in a puddle completely covering his shoe and not even a soaking wet foot could stop him from getting the most perfect photos. Dennis is the man, hire him, hire him, hire him!

**Mackenzie O.**  
Married Feb. 2024

Oh my goodness where to start. Dennis is a true master at what he does. Every photo we got back from him was vibrant and crisp and stunning, I've never felt so beautiful. He is so laid back to work with and captured the day so intimately and perfectly! Not only is he an exceptional technician but he made us feel so comfortable. The portraits we received from him from our wedding day are next level magazine quality images. Thank you Dennis!!

**Renske M.**  
Married Sept. 2018

I am passionate about capturing the authentic emotions and moments of your wedding day. I am personable and easy to work with, and I strive to create a relaxed and comfortable atmosphere for my clients. I will work with you to create a photography experience that reflects your love and personalities, and lets you be yourselves on your special day.

Your wedding day is one of the most important days of your life, and I will always put my ego aside and focus on what is best for you. When you work with me, you work with someone who cares deeply about the love you share and is invested fully in telling your story. Your wedding day is not about me or my vision. Your wedding day is about you.

**In the end, my goal is to create beautiful, timeless photos that you will treasure for years to come. I want you to look back at your photos and remember the love, laughter, and joy of your wedding day, and I want you to feel confident that you made the right choice in choosing me as your photographer.**
