LETTER OF AWARDS |

INFRASTRUCTURE TECHNOLOGY SERVICES MADE EASY

To better position ourselves in an increasingly competitive market, we have strategically secured exclusive rights / partnerships with various local councils, GLCs and private companies in delivering the best solution for their needs. Suffice to say, the company has grown leaps and bounds from its inception in 2003 to what it is today. With more than 50 engineering professionals, Infra X Sdn Bhd is today a force to be reckoned with in our targeted fields. As a high technology company, central to our policy is the recruitment of experienced, highly skilled, talented and committed individuals to propel the company forward. What the company may lack in experience, we make up with utmost dedication and commitment.

OUR VISION |

Infra X vision is to be Malaysia's leading infrastructure solutions provider, building a sustainable and connected future

OUR MISSION |

Network Infrastructure

To be the best network telecommunication infrastructure provider.

Global Partner

To be the global telecommunication infrastructure company which is most admired for its people, partnerships and performance.

Technology Expert

To build our future upon the strength of our Technology & Innovation.

Improves People's Lives

Improving people's lives through meaningful innovation.

CORE VALUES |

Integrity

We do what is right, not what is easy.

Excellence

We strive for outstanding results in everything we do.

Teamwork

We succeed together through collaboration.

Innovation

We embrace new ideas and smart solutions.

Sustainability

We build responsibly for future generations.

CORE BUSINESS |

RF Engineering

With over 12 years of experienced deploying. Our team of experienced RF engineers offers Radio Network Engineering Services that includes Site Survey and Design, Cell planning, Frequency Planning and Optimization.

CORE BUSINESS |

Man Power Supply

We are dedicated to being one of Malaysia's leading technical manpower providers for high technology sectors such as Telecommunications and Information Technology and is now an Authorized Resource Provider to multinationals such as Ericsson, Nokia Siemens Networks and Alcatel Lucent.

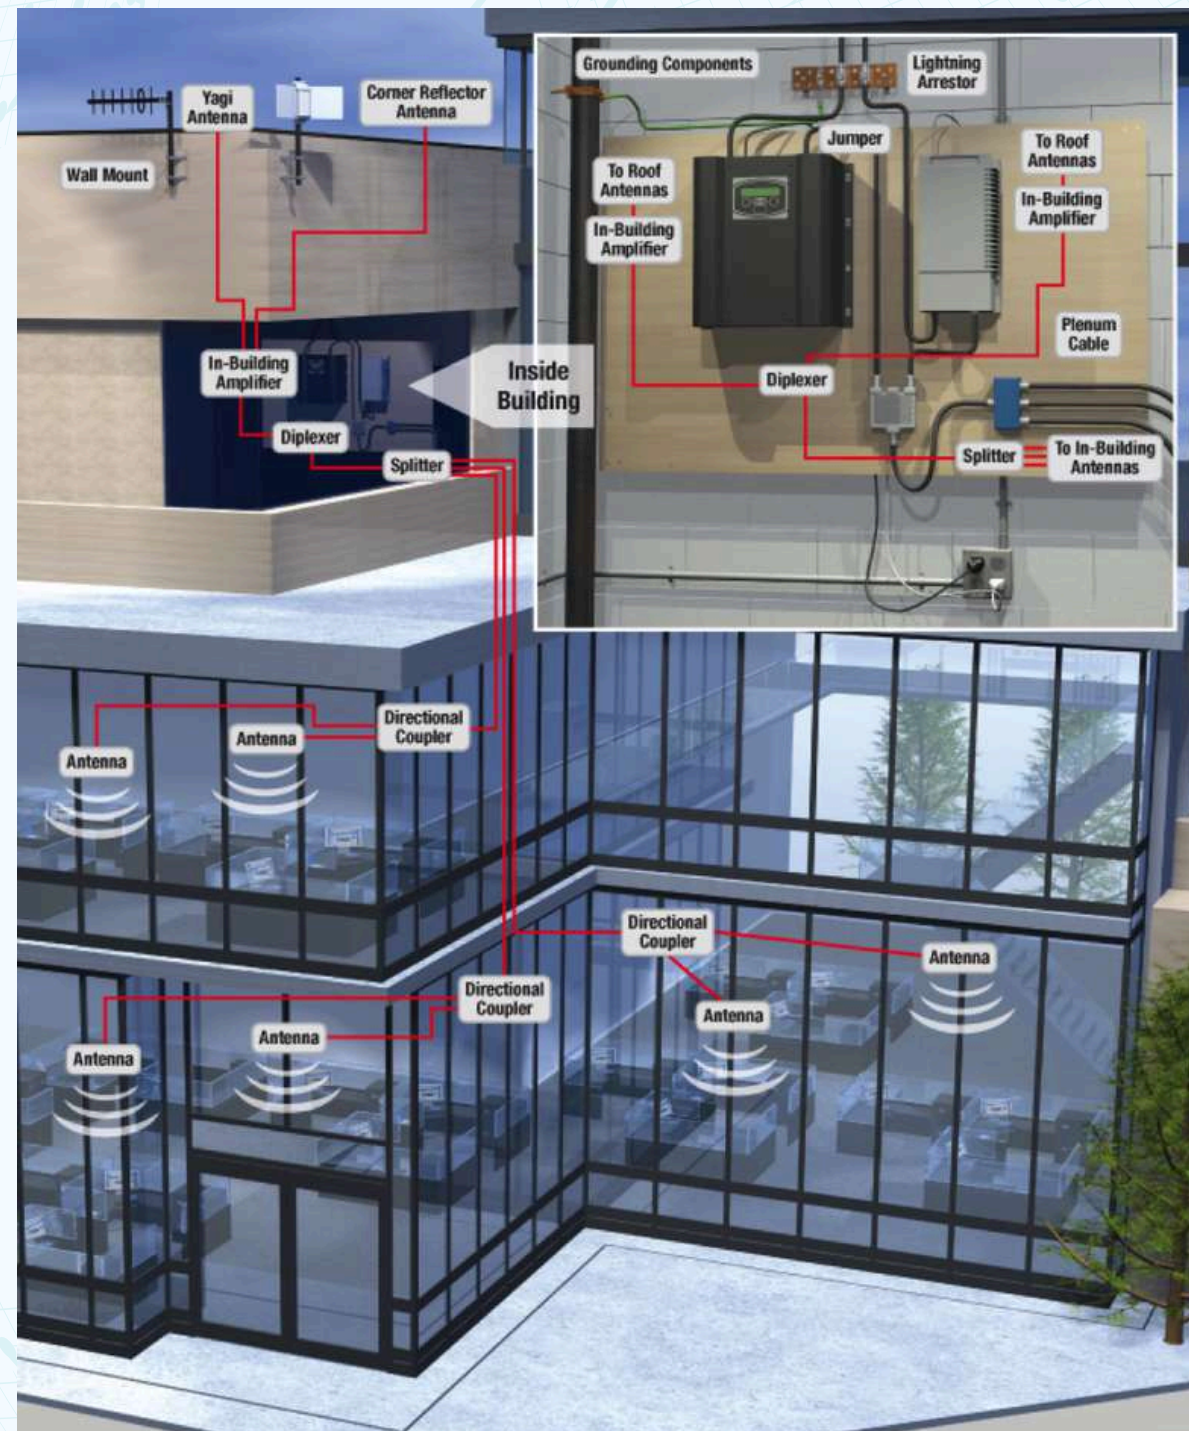

CORE BUSINESS |

Infra Leasing (NFP)

Infra X Sdn Bhd established the foundation to become a player in the Telco Infra Leasing in 2016 when they came up with the prototype for a base station site camouflaged as a public phone. This would later be known as Picocell on Payphone (POP) (PAT) disguised as lightning arrestor , Picocell on Streetlight (POS) – camouflaged as streetlight.

Infra X Sdn Bhd has all the major telcos as their client (Maxis, Celcom, Digi, Webe, Umobile, DNB)

In Building Solution Designs

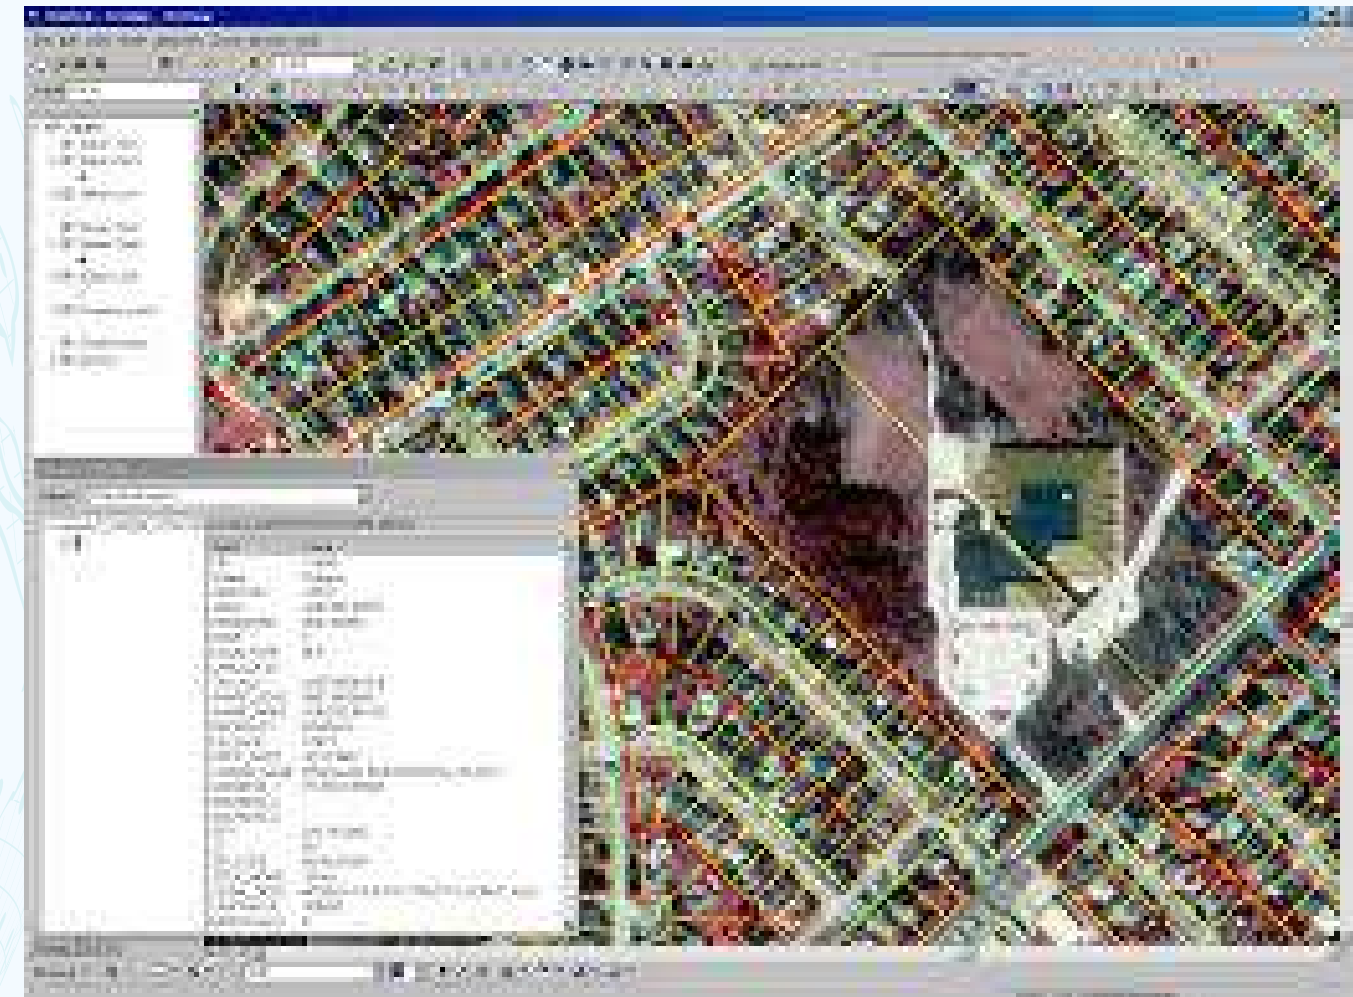

Infra X Sdn Bhd specialize in Cellular In-Building solutions. We have successfully designed and implemented IBC designs for Maxis, Celcom and Digi and have acted as IBS consultants to vendors such as Ericsson and Huawei.

CORE BUSINESS |

Geospatial Information System (GIS)

Infra X Sdn Bhd also offers GIS Solutions, by implementing GIS customers can Improve Organizational Integration – GIS integrates hardware, software, and data for capturing, managing, analyzing, and displaying all forms of geographically referenced information. GIS allows us to view, understand, question, interpret, and visualize data in many ways that reveal relationships, patterns, and trends in the form of maps, globes, reports, and charts.

Very Small Aperture Terminal (VSAT)

Infra X Sdn Bhd provide site surveys, network designs, installations and commissioning of complete VSAT Solution for clients needs. VSAT network uses satellite communication to provide a private network for our customers that is not limited to any geographical barriers.

CORE BUSINESS |

CCTV & Access Management Control

Infra X Sdn Bhd offers fully integrated security system solutions that are fully customizable and scalable to meet our customer's highest requirements. We are committed to give our customers the best form of protection and monitoring of their assets.

CORE BUSINESS |

IT Enterprise Solution

Infra X Sdn Bhd offers full IT Enterprise Solutions for your needs. We will create a workable fully customized system suited for your business and staff job functions accordingly.

Our IT Enterprise Solutions includes:

- Full systems development
- Systems Integration
- Systems Deployment and Testing Services
- Mobile Application Services
- Information Security Management

Research And Development

Infra X Sdn Bhd also has a Research and Development department. Based in Cyberjaya, Selangor, our R&D arm has produced some of the most innovative solutions in the market today.
