The Walk Beside You Promise

I, _____, am a human being

Just like you!

I will stop working so hard to look, act, and sound like everyone else
And, start working hard to **see,**
feel, and honor the humanity in everyone else.

I will see that we all have at least 2 things in common
We have a heart that beats in our chest
And a brain that learns in our head
I pledge to use my brain to **understand** your world
And use my heart to **accept** your unique path

I will honor your path
I won't march ahead of you in superiority
Or, slink behind you whispering in judgment
I will **walk proudly beside you**
supporting your uniqueness

Because **at my core**
I am a human being doing the best I can
Just like you!
