

Tariff Adjustment Policy

Due to ongoing fluctuations in U.S. import tariffs, Eversys will apply a line-item charge equal to **50% of the prevailing tariff rate** at the time of shipment. For example, if the current rate is 39%, the charge would be 19.5%.

What to Expect:

- An **estimated tariff rate** will appear on your invoice at the time of order.
- Once the equipment ships, we will confirm the **final rate and total charge**.
- You will have **5 business days** from notification to either:
 - **Confirm the order**, or
 - **Cancel the order** with no penalty (for standard models only).

Deposits:

- **Standard models (Cameo C'2s & C'2m Classic Tempest, Enigma E'4s & E'4m Classic Tempest)**: Fully refundable if canceled within the 5-day window.
- Cancellations **after the 5-day window** will result in a **non-refundable 25% charge**, even for standard models.
- **For non-standard models**, the 25% deposit required to secure the order will be non-refundable.

We are committed to transparency and will keep you informed of any changes. Our goal is to offer clarity and flexibility during this dynamic period.
