firestarters

## General Use Instructions:

### BARBECUES:

Lay a shallow layer of charcoal in your grill. Distribute 2-3 sachet firestarters amongst your charcoal. Light each firestarter at the end of the wrapper with a utility lighter or a long match, then add more charcoal as desired. Make sure the charcoal turns to ash before beginning cooking. Do not add firestarters to an existing fire.

### WOOD STOVES & CAMPFIRE:

Distribute 2-3 sachet firestarters amongst your charcoal. Light each firestarter at the end of the wrapper with a utility lighter or a long match. When fire is well-lit, add more wood and increase draft. Do not add firestarters to an existing fire.

## Safety Instructions:

- Ensure adequate ventilation. Never burn in an enclosed space.
- Keep out of reach of children and pets.
- Keep away from heat, hot surfaces, sparks open flames and other ignition sources.
- No smoking.
- Allow fuel to burn out completely and let the ashes cool before disposing.
- Return unused product to box.
