

## Insurance Industry Charitable Foundation

Helping communities and enriching lives, together.

### WHO WE ARE

The Insurance Industry Charitable Foundation (IICF) is a unique nonprofit that helps communities and enriches lives by uniting the collective strengths of the insurance industry in providing grants, volunteer service and leadership.

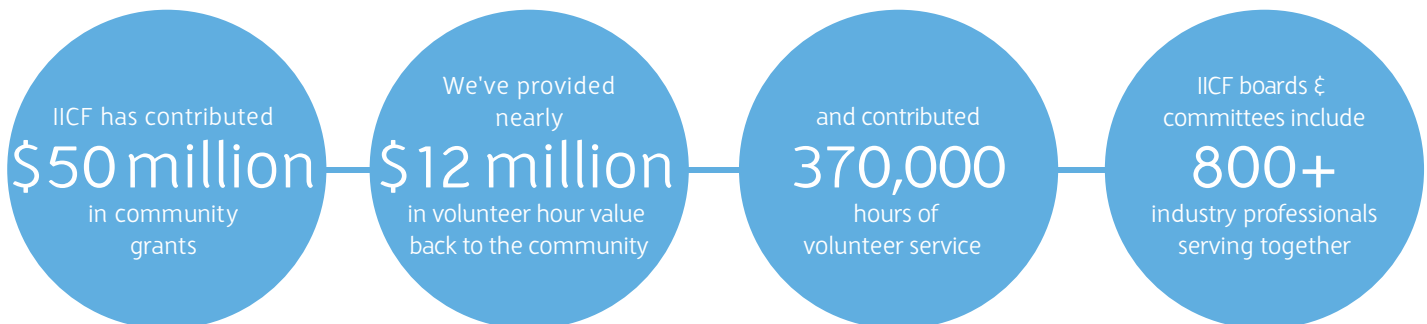

Established in 1994, IICF has served as the philanthropic voice and foundation of the insurance industry for more than thirty years. Having contributed \$50 million in community grants and \$12 million in volunteer service value, the IICF has provided meaningful support to more than one thousand local charities serving our neighbors in need.

### WHAT WE DO

As the philanthropic voice of the insurance industry, IICF raises awareness of collective industry charitable contributions and community impact. IICF connects the insurance industry with local nonprofit organizations and communities and by doing so we:

- Help those in need by awarding grants to nonprofits and charities meeting vital community needs
- Assist companies to amplify their community impact
- Attract and develop talent of the future by creating a platform for leadership and introduction to the industry
- Provide individuals the opportunities to make a difference and network with a sense of purpose
- Host events that inspire leadership, community involvement and networking, and raise funds for grants
- Present a unique way to give back through year-round volunteering opportunities and the annual Month of Giving
- Promote leadership through our Boards of Directors, Associate Boards of young professionals and IICF Global Membership program for individuals

### OUR IMPACT

The six Divisions of IICF include four in the US: **Midwest, Northeast, Southeast and Western** and two international: **United Kingdom and Canada**. Eleven Chapters within these IICF Divisions, along with Associate Boards, enable broader regional engagement.

Through our IICF Boards of Directors, we award grants to nonprofits and charities in a range of focus areas, including children at risk, homelessness, education, health and human services, military veterans, social mobility, the environment, disaster preparedness and relief and more.
