

Key Programming Software Update

MG* Update | ADS2333- Code D756920AD | September 2026

The new MG software update allows you to program models up to 2026 even without a working key, with full support for the PIN code reading function.

What does the software do?

The ADS2333 software was developed to program bladed and proximity keys for various MG models, even in an all-keys-lost situation.

Full pincode reading coverage

The software reads the PIN code from the vehicle via Smart Pro for all vehicles listed in the application list. This function requires an active internet connection.

What else is needed?

Smart Pro

OFFER DETAILS

Cable	ADC2000B, ADC2013
Smart Aerial+ required	No
Software category	B
Other accessories required	No
