

CaffinityTM

natural performance caffeine

Nature's Intelligent Energy Solution

Today's performance-driven consumers want energy that works *with* the body—clean, natural fuel that helps them push harder without compromise.

CaffinityTM is the only energy ingredient powered by a natural caffeine-polyphenol complex from coffee fruit. It delivers measurable performance benefits during high-intensity effort and a smoother, more balanced transition into recovery.

- ⦿ Boosts performance output
- ⦿ Reduces perceived exertion
- ⦿ Fast lactate normalization post-exercise
- ⦿ Glucose stability through exercise fueling

 Improves performance by 4.6%

 Promotes glucose stability

 Makes exercise feel easier

Available

FUTURE  CEUTICALS

Benefits Beyond the Bean

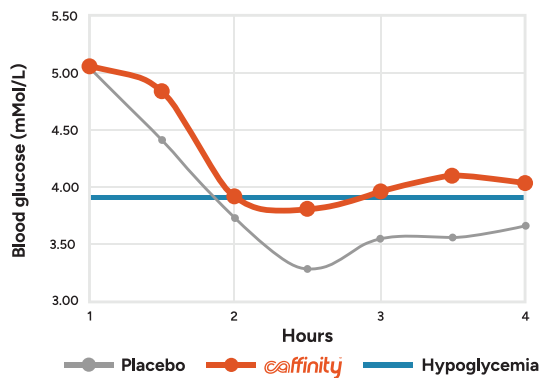

Caffinity™ delivers 70% natural caffeine and 5% bioavailable polyphenols from the whole coffee cherry, creating a unique botanical complex that fuels measurable performance gains and supports metabolic benefits for an enhanced energy experience.

A Smarter, Smoother Energy Experience

Caffinity™ provides clean, responsive energy that keeps working after the workout. While typical functional caffeines can cause metabolic swings or a rough cooldown, Caffinity™ supports a smoother, more balanced transition into recovery.

- ⦿ Fast lactate decline → quicker return to baseline post-exercise
- ⦿ No increase in GI discomfort → well tolerated by users during exercise
- ⦿ Stable blood glucose through fueling → avoids spikes and crashes

Post-Exercise Glucose Stability

Performance in Overdrive

Caffinity™ helps maximize performance by working smarter, not harder. In a double-blind, placebo-controlled trial, a 286mg dose produced clinically meaningful performance gains in highly trained athletes.

- ⦿ 4.6% performance boost → more total work completed
- ⦿ Reduced perceived exertion → makes harder effort feel easier
- ⦿ Low-dose, high-impact → efficacy comparable to higher isolated caffeine doses

Key Applications

Caffinity™ is a white, fully soluble, and formulation-ready powder ideal for:

- ⦿ Energy and pre-workout beverages
- ⦿ Performance and hydration mixes
- ⦿ Functional bars, oatmeal, and yogurts
- ⦿ Wellness and active-lifestyle supplements

Caffinity™ goes beyond caffeine by delivering improved performance, quick lactate normalization, and healthy metabolic response in one intelligent energy solution.

Sustainably Sourced

Derived from the entire coffee cherry and sustainably harvested, Caffinity™ preserves and concentrates its native compounds to deliver a clean, functional, and eco-friendly energy solution.
