HOW WE HELP

STRATEGY & ADVICE

Leaning on years of experience working closely with successful business owners, we help you devise an ambitious yet realistic strategy for your company.

We also provide more hands on guidance on structuring and shaping your business as it evolves. Our advice also allows you to develop a unique business plan, that aligns with your ambitions – whether that's scaling, preparing for transition, maximising value or planning what comes next.

GROWTH & INVESTMENT

We want to help entrepreneurs find the best route to success. . That could be by accessing capital and our investor pool, to planning for a liquidity event and strategic transitions.

We are looking for partnerships with founders who are explicitly growth-orientated and already generating revenue.

We are especially keen on working with female entrepreneurs as we feel there is a distinct and foolish lack of investment in this demographic.

EXIT & THE FUTURE

After years of hard work, there's a liquidity event at the the end of the tunnel. We will help ensure that you get the deal you deserve, and that the business is handed over in good shape. Ideally, you will be aiming for an exit worth more than £20m within a 3-5 year timetable.

We also work to ensure that any windfall is carefully managed and invested, allowing you and your family to go from strength to strength as a result of your entrepreneurial success. This could include the setup of a family office or other more bespoke wealth management recommendations.

BECOMING THE CEO OF THE REST OF YOUR LIFE

After building and leading a successful business, one of the most important questions you'll face is: What comes next?

Many entrepreneurs find that the skills which delivered business success, such as strategic thinking, discipline and tenacity, are equally valuable in this next phase. At Cavendish, we help you transition into the role of CEO of your personal life by helping you to set long-term direction and translating your vision into action.

You remain the strategic leader of your life and legacy, while we act as your trusted advisory partner coordinating planning, execution and governance across financial, family and lifestyle objectives.

In this journey, where desired, we may also introduce a specialist mindset coach to support you in exploring your aspirations, clarifying what success looks like beyond your business achievements.
