BIG IDEA

Jesus
helps us
grow.

BIBLE STORY

The Parable of the Farmer and the Seeds

SCRIPTURES

Matthew 13:1-9, 18-23, Colossians 2:6-7

TALK ABOUT IT

- What is a parable? Why did Jesus tell them?
- What different kinds of soil do the seeds fall on?
- What happened to the different seeds?
- When has your heart been like each of the soils?
- What things will you do to grow closer to God this summer?

FOR PARENTS

The roots of a plant aren't seen, but they do the important jobs of anchoring the plant so it doesn't blow over and soaking up water and nutrients from the soil. People need roots for the same reasons. Our faith acts like roots to anchor us to God. Learning thing about God keep us from being blown away from the truth of who God is. Spending time with God lets us soak up God's presence that is full of good things, like peace and joy, that nourish us.

Prayer Point:

Ask Jesus to help you grow your faith in who God is and your friendship with God.

MEMORY VERSE

"Anyone with ears to hear should listen and understand."

Mark 4:9 (NLT)
