- Jonathan Szo
- Navya
- Gigi

CALL TO ORDER

Call the meeting to order once quorum is hit 1:06 TIME EST

Land Acknowledgement

We would like to begin by acknowledging that this meeting is taking place on the unceded and unsurrendered Algonquin territories. We acknowledge the land both as an explicit reminder of the ongoing colonialism taking place here in Canada and as a reminder of the work that is yet to be done towards reconciliation between the Indigenous peoples of this land, settlers and the people who have been historically and violently displaced from their home territories to be placed here. It is not enough to just read these words at events, it is important to understand them, their historical context and their connection to promoting real reconciliation based dialogue and action.

The Canadian Federation of Students (CFS) is committed to upholding the principles of equity, inclusion, and justice within all educational, working, and community spaces we serve. We believe that excellence stems from diverse experiences and that we all share responsibility for creating a respectful and inclusive environment. In pursuit of these values, we work proactively to dismantle barriers and ensure that all members, especially those from historically marginalized communities, feel seen, respected, and supported. We actively encourage applications and participation from members of groups facing systemic

and historical inequities, including but not limited to:

- Indigenous peoples, including First Nations, Métis, and Inuit communities;
- racialized communities;
- persons with visible and invisible disabilities;
- individuals marginalized due to gender identity, gender expression, or sexual orientation;
- individuals experiencing economic, social, or other structural inequities.

We recognize that identities intersect and that these intersections may create unique

experiences of marginalization. Our commitment to equity means striving for fairness and inclusivity through an anti-oppressive framework. This framework acknowledges how systems of oppression—such as colonialism, citizenship, racism, sexism, homophobia, transphobia, ableism, and classism—create both individual and systemic barriers. Our approach actively seeks to address and dismantle these barriers by deconstructing power imbalances and fostering equal opportunities. Through our work, we endeavor to embed these principles into every aspect of our organization to create a community where everyone’s contributions are valued, and every individual can thrive.
