

## Magnetic Victory Style Band Tool

Developed in collaboration with Ryan Tomich of Victory Outdoor Services, our new Inca Border Stamp System is designed as a seamless add-on to the industry-proven Inca Magnetic Stamp. This system allows contractors to frame the Inca pattern with precise 12-inch seamless texture bands, using two dedicated tools, a straight border stamp and a cross stamp, for clean transitions and professional edges. The result is a faster layout, consistent alignment, and a finished slab that looks intentionally designed from edge to edge.

## 20' Magnetic Compass

The 20' Compass is a large-format magnetic stamp engineered to create dramatic radial designs with striking visual impact. Its full 20' diameter delivers bold geometry and precise alignment, allowing contractors to produce eye-catching focal points that instantly elevate patios, courtyards and outdoor living spaces.

Designed & hand crafted in the USA

### **Tuscan Banded**

Tuscan Banded – a Magnetic Self-aligning Concrete Stamp featuring our best-selling wood texture arranged in a mosaic pattern and framed with a continuous 8" perimeter band. This integrated design delivers the warmth of wood with a stone texture border, allowing you to create a refined, structured look in a single, efficient layout.

### **Capri Banded**

The Capri Banded stamp combines our most popular Random Stone pattern with a built-in 8" band for a clean, finished border. Designed for speed and consistency, this tool makes it easy to achieve a picture frame border with strong visual separation and professional results every time.

### **Prata Banded**

The Prata Banded stamp showcases our top-selling Ashlar pattern, surrounded by an integrated 8" perimeter band. The result is a balanced, high-end finish that provides clear definition while maintaining the classic appeal of Ashlar stone, ideal for patios, walkways, and outdoor living spaces.
