PETAL

RP-E-2102

Capturing a mutual passion for botanical beauty, the Petal collection reflects Sebastian Herkner's ongoing creative dialogue with Rakumba. Petal draws inspiration from the texture and form of flowers within Sebastian's own home.

The use of generously thick glass, combined with a hand-illustrated natural texture, adds intrigue to the way the glowing light source refracts - a tactile and visually arresting homage to the botanical beauty of a single petal. This unique form is presented as a pendant and wall sconce in two scales, with an alluring table lamp edition completing the series.

"I want to design companions for life, so it's not just about the shape, the colour, the surface. I want to tell stories, and I want people to create a new story with the product as part of their time together with it, the way they interact with it. "

————— **Sebastian Herkner**

“Petal tells a story about craftsmanship, about playing with light, about the interaction of colour and light – it’s more than just a beautiful pendant, it’s a sculpture”

————— **Sebastian Herkner**

DATA

RP-E-2102	G9 LAMP HOLDER WITH GLOBE INCLUDED*
POWER	MAX 4.8W LED GLOBE
DIMMING	Yes, for compatible globes
PRIMARY VOLTAGE (TO FITTING)	220-240VAC / 110-120V (US)
IP RATING	IP20
APPROVALS	AUSTRALIA, NEW ZEALAND, EUROPE

* Supplied Globe Specification: G9, 4.8W, 490lm, 2700K, CRI90

SEBASTIAN HERKNER

Sebastian Herkner established his studio in Offenbach, Germany in 2006. Since then, he has designed furniture, lighting and products for brands all around the world. Sebastian's design ethos is driven by quality and function as well as tradition and innovation. His designs are personal, developed using intuition and instinct, working with brands who share his vision and responsibility for products.

Named Elle Deco International Design Award (EDIDA) Best International Designer of the Year 2021 and Maison & Objet Designer of the Year 2019, Sebastian's works have won numerous accolades internationally.

Rakumba is the first Australian brand collaboration for Sebastian. Despite operating on opposite sides of the globe, the collaboration with Rakumba's product development team has been close and intense, continuing Rakumba's international design legacy and yielding results that speak for themselves.
