

Dusked Pendant by Studio Enti

The Dusked Pendant is a hand-cast porcelain light crafted in Sydney, Australia, inspired by the soft calm of day's end. Each pendant is formed from stained Australian porcelain and finished with a contrasting dusk-toned glaze along the rim, giving every piece a subtly unique character.

Depending on the colour selected, the Dusked Pendant can cast either warm, directional light or a more ambient glow. Lighter tones offer gentle translucency through the porcelain, while deeper shades provide a focused, atmospheric effect.

Suitable as a single, intimate feature or grouped to illuminate larger spaces, the Dusked Pendant brings crafted material warmth and quiet, contemporary elegance to residential and architectural interiors.
