Colour Range

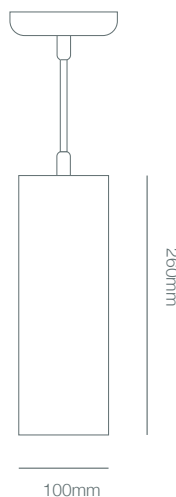

*translucency, **premium price suppliment

Eos - Pendant

The EOS Pendant is defined by its refined form and quiet architectural presence. Handcrafted in stained Australian porcelain in our Sydney studio, each shade reveals the material's depth and subtle translucency, particularly in lighter tones.

Designed to deliver both directional and ambient illumination, EOS can be specified individually or in linear repetition to articulate a space with rhythm and balance. Its considered proportions and soft light diffusion make it a versatile element within residential and commercial interiors, where materiality and form are paramount.
