Orb - Pendant

The Orb Pendant is a hand-cast porcelain light offering warm ambient illumination with a gentle directional glow through its carved opening. When cast in white the shade becomes subtly translucent, creating a soft effect that varies with the tone and strength of the shade. Smaller sizes appear more luminous, while the larger form diffuses light more softly due to the increased distance from the light source.

Available in three sizes and the full Studio Enti colour palette, the Orb family is designed to work individually or as grouped clusters.
