

CLOAK 400 / Sconce

WALL LIGHT

Cloak is defined by its clean profile and considered detailing. Refined fixings are thoughtfully resolved, while textured glass lends depth and tactility to the form.

The design centres on the warmth and diffusion of light through hand-formed glass, creating a soft ambient glow. Each panel is individually moulded, giving every piece subtle variation.

Rooted in design and craftsmanship, Cloak is a beautifully resolved object as much as it is a source of light.

Note: There are natural variations in the glass profile due to the gravity slumping process.

MADE IN MELBOURNE, AUSTRALIA
