

*Langamér, an aromatic wine, was born thanks to the intuition of joining a century tradition and experience matured in the “Langa” land with a passionate modern research.*

It is the surprising union between the quality of a fine “Langa” wine, aged in barrel, and the properties of herbs and aromatic spices carefully selected and cleverly measured.

Langamér is an outstanding substitute of the traditional bitters and digestive liquors thanks to its particularly digestive properties and moderate alcoholic contents (17% vol).
