Policy Term

All policies are written with a one-year term.

Automatic Increase in Insurance

Protection Class

A building's Protection Class, as determined by ISO LOCATION, represents to its risk of property damage due to fire. For split classifications (e.g., 6/6X), the classification used in rating is determined as follows:

1. For all split classes other than 10/10W, if the building is within 1,000 feet of a fire hydrant, the first class shown is used (e.g., 6 for classification 6/6X). Otherwise, the second class shown is used.
2. For the split class 10/10W, if the distance to the primary responding fire department is between five and seven miles, and the building is within 1,000 feet of a fire hydrant, 10W is used. Otherwise, 10 is used.

Liability Class Group

A building's Liability Class Group is a number corresponding directly to its Businessowners Classification that represents the classification's general level of liability risk. See the Businessowners Classification section for more details. RATING ALGORITHMS

See below for the rating algorithms used to calculate the premiums of the three primary coverages included in the Businessowners Coverage Form: Building, Business Personal Property, and Liability and Medical Expenses, as well as the rating algorithms used to calculate the premiums of any Additional Coverages, Coverage Extensions, Optional Coverages, and endorsements. See the applicable sections for details on the coverages themselves. Any coverage or endorsement not included in this section does not generate premium.

Several coverages and endorsements are subject to a Loss Cost Multiplier that adjusts rates to account for losses, loss adjustment expenses, and underwriting expenses. The Loss Cost Multiplier is 1.538.

BILLING PAYMENT OPTIONS

Our BOP program offers five payment options to policyholders. These options are the following:

1. Direct Bill – Pay in Full
2. Direct Bill – 6 Pay (requires two months down and five remaining installments every 45 days)
3. Direct Bill – 2 Pay (requires 50% down and one installment after 150 days)
4. Automated Debit 12 Pay (requires two months down and eleven monthly ACH payments)
5. Mortgagee Bill Full Pay

Down payments on any bill plan option can be made by the following payment types:

1. ACH from the customer's account
2. ACH Trust from the agent's trust account
3. Credit Card

There is a \$5 Installment Fee applied to all Direct Bill pay plans to all installment payments, not the down payment.

Automated Debit 12 Pay requires an authorization form to be completed and attached to the policy or kept in the agency office. There is a \$1 service charge per installment when selecting this method of payment. This type of payment does require an immediate down payment. If no money is collected, an immediate transaction will pull from the customer's account.

There is a \$20 Insufficient Fund charge when a payment is not honored by the financial institution.

A \$20 fee will be applied for any rejected Credit Card payment.

In order to finalize any outstanding balances, there is a minimum seven-day delay until any refunds are processed.

In the event we receive an overpayment on a policy, the entire amount will be applied to the following installment and will not be divided among the remaining installments.

If a policy is cancelled for non-payment and a payment is later received there are two options:

- Reinstate with a lapse in coverage. This is allowed only within 16 days after cancellation and there is no coverage during this time. Payments received after the 16 days will be returned.
- If 30 days past the due date, a new application must be submitted as new business, and all previous discounts will not apply.
