ADVANTAGES OF EYRUS

"Eyrus was recommended and we need a secure work area. We use Eyrus to track who is on site and to ensure that the only people who can get on site are the ones that we give a badge to. We also use Eyrus to track how many people are on site."

"I like that it gives me detailed reports about how many people are on the project, and that it can store information about workers like their OSHA from one source."

Project Engineer

"The access control is super easy to use and convenient on a busy job site."
